EXPLORE THE WORLD WITH US!

Since 1893 Hurtigruten has explored the Norwegian coast and the polar waters of remote shores. We are still exploring and introducing new fjords and excursions along the long and rugged Norwegians coast, where 22 of the 34 ports that we call at on a daily basis are north of the Arctic Circle!

'The world's most beautiful sea voyage' is often the phrase used to describe the traditional Hurtigruten sailing from Bergen to Kirkenes and back, and we couldn't agree more. Our ships sail calmly through majestic fjords and call on remote small ports where many larger vessels are unable to enter. We think that ours is the best way to experience Norway.

In 1911 Roald Amundsen and his crew were the first to reach the South Pole on his Antarctica expedition with Fram. Now you can make your very own expedition come true with Hurtigruten's MS Fram to both Antarctica and Arctic destinations like Spitsbergen, Greenland and Iceland. Each adventure is a voyage through pristine environments encountering incredible wildlife, beautiful scenery and experiencing fascinating cultures, all in the wake of our Norwegian explorer giants.

One of Hurtigruten's core values is responsibility. This means that we trade locally, respect traditions and value our cooperation with the communities that make an immense effort in welcoming our guests, both along the Norwegian coast and in the Polar areas.

Many of the places we visit are regions where nature, people and wildlife are unique. We take great pride in our commitment to preserve these natural wonders in all their untouched beauty.

I am a frequent traveller on our ships, and I hope to meet you on board. Let us share the unique Hurtigruten experience, whether you choose to enjoy our panorama decks, taking in the breathtaking views of the Norwegian fjords bathing in the magical Midnight Sun, sampling the local food in our restaurants, embarking one of our Polarcirkel boats looking for polar bears on Spitsbergen, or hunting the Northern Lights at the North Cape during the winter. The choice is yours.

Welcome!

Sailing in the wake OF GIANTS

A MARITIME TRADITION OF WHICH WE ARE PROUD

In the late 19th Century, the 1,250km coastline from Bergen to Kirkenes was a busy route for all sort of shipping, from steamers to the single sailed jakts. But services were unreliable, infrequent and rarely sailed at night, making the journey from north to south a long and arduous experience.

The government wished to remedy the situation and invited shipping companies to submit tenders to operate an express route between Trondheim and Tromsø or Hammerfest depending on the season. Back then there were only 28 lighthouses north of Trondheim, making night-time sailing very risky. But the owner of a newly formed company showed an interest for the route despite the dangers. This man was Richard With.

In 1893, Captain Richard With's steamer, DS Vesteraalen, was brought into regular service along the coast of Norway, and a regular sea link was established. The service offered several weekly departures, first from Trondheim to Hammerfest and later from Bergen to Kirkenes in only seven days. He called this important connection 'hurtigruten', meaning the fast route.

The same year as Richard With established Hurtigruten, another Norwegian ship was sailing in more remote and even colder waters. The original Fram was the most famous vessel of its time, and the achievements of her expeditions are unparalleled: With Fridtjof Nansen she was the first ship to drift across the Arctic Ocean. Then Otto Sverdrup used her to survey a larger area than any previous expedition – the Canadian territory of Nunavut. And most famous of all, she took Roald Amundsen to his starting point in Antarctica, as he raced to reach the South Pole. In 1896 Hurtigruten started the sportsman route to Spitsbergen, the beginning of our Explorer voyages.

More than 120 years later, Hurtigruten's explorer vessel MS Fram takes guests to Spitsbergen, Greenland, Iceland and Antarctica. Hurtigruten's eleven coastal ships still carry freight and passengers along the coast of Norway, and our captains use their extensive maritime expertise to ensure that guests and goods are safely carried from port to port. Our Captains and their Senior Officers are also experienced navigators of Polar waters. They take pride planning routes that minimise the load of the engines and reduce emissions.

Today, as they have been for the last 120 years, the Hurtigruten ships are the best way to explore Norwegian coastal life. And just like it was in the days of Nansen, Sverdrup and Amundsen, the new MS Fram is still a vessel for broadening its guests' understanding of the world.

Day by day

WELCOME TO A UNIQUE COASTAL JOURNEY

A round voyage from Bergen to Kirkenes and back again is the ultimate voyage with Hurtigruten.

The following description is of our 12-day voyage, with many of the highlights and ports visited.

NORTHBOUND JOURNEY

DAY 1 Bergen - The Gateway to the Fjords
The 12-day Classic Round Voyage starts in Bergen, a city surrounded by seven mountains. Bergen was founded in 1070 AD, and was the capital of Norway for several years. Today this vibrant city has retained a great deal of local character and history. One example of this is the historic UNESCO-listed Bryggen district with colourful wharfs that date back to the 14th century. Before sailing from Bergen in the evening, you may wish to take a stroll around this charming, compact city. As the ship starts its northbound journey you can enjoy the myriad views of islands, small fishing communities and fjords.

DAY 2 Ålesund - the Art Nouveau City, Geirangerfjord or Hjørundfjord
If you wake up early the next day you have the chance to enjoy the breathtaking beauty of Nordfjord, followed by a delicious breakfast. As we sail past the West Cape, we enter open sea for one of the few times during this voyage. The ship then navigates through skerries and islands before reaching Ålesund. This city is renowned for its unique concentration of Art Nouveau architecture. From the top of Mount Aksla you can enjoy an amazing panorama of the area. In the summer months we set course for the spectacular UNESCO-listed Geirangerfjord passing sheer, 800m cliffs and impressive waterfalls en route. In autumn we explore Hjørundfjord, situated amidst the majestic Sunnmore Alps. Its seclusion and unspoiled natural landscape are what give this fjord its special character. Far from the tourist bustle, we take passengers past steep rock walls, green meadows, isolated mountain farms and small villages.

DAY 3 Trondheim - The medieval capital of Norway
In Trondheim you can discover the city's secrets by strolling through its charming streets or sitting by the peaceful harbour. Be sure to enjoy the views from Gamle Bybrua (the Old Town Bridge) which dates back to 1861 and the restored wooden buildings of the Bakkland district. Nidaros Cathedral, built between 1070 and 1300, is Norway's largest Gothic edifice. In the afternoon the ship sets a northwest course, passing the distinct Kjeungskjær lighthouse and numerous charming islets and rocky outcrops. After passing through the narrow Stoksund, the ship arrives in Rørvik.

DAY 4 Arctic Circle and Lofoten Islands
Today we cross the Arctic Circle between Nesna and Ørnes, marked by a globe on a small islet. Passengers sailing in Arctic waters for the first time can participate in the Arctic Circle ceremony on deck. After a break at Bodø you can enjoy the sight of the 1,000m high Lofoten Wall appearing on the horizon. The charms of the Lofoten Islands are revealed in all the small, picturesque fishing villages with their bohemian atmosphere. Tucked in between majestic granite cliffs and white sandy beaches, these islands are an experience that is out of the ordinary. Stroll between stockfish racks and 'rorbuer', the traditional fisherman's huts. Between Stamsund and Svolvær you can take part in an optional excursion stepping back in history at the authentic Lofotr Viking Feast which takes place in an impressive reconstruction of the largest Viking house ever found.

DAY 5 Tromsø - Gateway to the Arctic
During the night the ship navigates the narrow Raftsund strait. After a stop in Harstad, we continue to Tromsø for a prolonged stay. Many epic Arctic expeditions

used Tromsø as a starting point. With the presence of the Norwegian Polar Institute, the city has cemented its position as the Polar Capital of Norway. 'Ishavskatedralen', The Arctic Cathedral, is the city's most famous landmark with its progressive design and extraordinary stained glass window. The world's northernmost university and large numbers of tourists have created a vibrant cultural scene and the numerous restaurants and cafes are always teeming with life.

DAY 6 Honningsvåg and the North Cape
After a brief stop in Hammerfest and Havøysund we arrive in Honningsvåg, the gateway to the spectacular North Cape. The optional excursion to the North Cape Plateau puts you at 71° 10' 21"N, only 2,000km from the Geographical North Pole. Standing atop the 307m North Cape plateau gives you a sublime feeling of being at the end of the world. The area is also known for its birdlife. As we approach Kjøllefjord this evening, we pass the rock formation Finnkirka, an ancient sacrificial site of the area's indigenous Sámi people.

DAY 7 Kirkenes – the wild and beautiful northeast
When we arrive in Kirkenes, at 30 ° East, we are actually further east than Istanbul and St. Petersburg. The Russian border is close by, and you may find it intriguing that the road signs are written in both Norwegian and Russian. Spending time in Kirkenes gives you an opportunity to take part in some of the adventurous activities offered in this Arctic environment.

SOUTHBOUND JOURNEY
DAY 7 Kirkenes - The turning point
As the ship starts its voyage south, you can first enjoy a delicious lunch followed by views of arctic wilderness from deck or the panorama lounge. The ports previously visited by night on the northbound journey are now seen by day. In the afternoon the ship docks in Vardø, Norway's easternmost port. We continue along the Varanger peninsula to Båtsfjord before reaching Berlevåg in the evening.

DAY 8 Hammerfest and North Cape
When we reach Honningsvåg early in the morning, you can start the day with an excursion to the North Cape and have breakfast 1,000ft above the churning Atlantic Ocean, together with a visit to a Sámi family. Hammerfest, where signs of settlement dates back to the Stone Age, still plays an important role as a fishing settlement. Here you can also see the Meridian Column, erected in 1854 to commemorate the first precise measurement of the globe - an achievement so important it became a UNESCO World Heritage Site. As we arrive in Tromsø you may choose to book a seat at the Midnight Concert at the Arctic Cathedral. Or why not check out one of the town's many friendly pubs and try the local brew, Mack's Arctic Beer.

DAY 9 Vesterålen, Trollfjord and Lofoten Islands
The Vesterålen and Lofoten Islands are on today's schedule. You'll pass through the Risøyrenna, a channel constructed especially for Hurtigruten providing an "inside route" between Harstad and Sortland. In Stokmarknes, where Hurtigruten was founded, you will find the Hurtigruten museum. Entry is free for all passengers. Continuing through the narrow Raftsund, the captain may choose to take a detour into the spectacular Trollfjord where steep cliffs hug the ship's sides. Then we continue to Svolvær, the main settlement on the Lofoten Islands. In addition to beautiful nature, Lofoten is known for cod fishing. The season starts in January and lasts through April. We leave the Lofoten Islands during the evening and set course for the mainland.

DAY 10 Crossing the Arctic Circle, Seven Sisters
The Helgeland coast with hundreds of islets, fertile farmlands and steep mountains is worth getting up early to experience. Legends and myths are numerous along this part of the coast. Crossing the Arctic Circle again is another important 'rite of passage'. We celebrate this with a taste of our Arctic traditions out on deck. Another UNESCO World Heritage Site, the Vega Islands, is close to our call in Sandnessjøen and can be visited on an optional excursion during summer.

DAY 11 Trondheim and cities of the west coast
Today gives you another opportunity to explore the city of Trondheim. Passing the islands of Munkholmen and Hitra we then cross the open sea to Molde, which is also known as the "city of roses" due to its lush Gulf Stream location. The town of Kristiansund is regarded as Norway's "cured cod capital" and has long been the main export port for this popular salted dry fish.

DAY 12 Fjords, glacier and Bergen
Make the most of your final impressions of Norway as today we say goodbye. But before that, you still have a few nautical miles of fascinating scenery ahead of you such as the picturesque Nordfjord below the enormous Jostedal Glacier. A few nautical miles south of this we navigate the estuary of the mighty Sognefjord. You also get the best views of the archipelago en route. You disembark in Bergen, taking with you memories of a unique journey.

The Classic Voyage South
Our shortest classic voyage is the 6-day journey from Kirkenes to Bergen. The highlights on this journey include the daytime sailing through the beautiful Vesterålen and Lofoten Islands, seeing the Seven Sisters mountain range and the legendary 'mountain with the hole', Torghatten.

The Classic Voyage North
This voyage sails the iconic Norwegian coastline's sheltered waters from Bergen towards the Russian border town of Kirkenes in 7 days. En route you will stop at 34 ports, some of them big cities and some just small hamlets. Crossing the Arctic Circle and the North Cape are also some of the highlights.

The Classic Norwegian Discovery
This 11-day journey combines many highlights of the Classic Round Voyage. Starting in Bergen, you will cross the Arctic Circle twice, pass the North Cape, visit the turning point at Kirkenes and disembark in the medieval city of Trondheim.

A Classic Round Voyage
This is the ultimate voyage with Hurtigruten! It is a 12-day odyssey covering 2,500 nautical miles. You will see all of our 34 ports we visit in daylight (unless you travel in winter, when there is not much light above the Arctic Circle at all – the perfect conditions for seeing the Northern Lights).

A beautiful voyage whatever the season
Each season brings with it new opportunities to experience a Hurtigruten voyage in an entirely different light, so to speak. The on board activities, shore excursions and delicious, locally sourced cuisine in our restaurants change to reflect the time of year and the waters we sail in. On the next pages you will find descriptions of the different seasons, highlights and our seasonal concepts.

Spring and THE ARCTIC AWAKENING

On a spring voyage with us you can experience 'The Arctic Awakening' and three seasons in one journey. There are great contrasts between the southern and the northern part of Norway at this time of the year. You could travel from a spring/ summer climate in Bergen to full winter in Kirkenes, where you can still participate in our winter excursions.

The sun works overtime to thaw this frozen land, rising higher and higher. Each day you will notice an increase in both daylight hours and the greenery of the landscape. At the higher latitudes of the Arctic region, winter struggles to maintain its grip. Eventually, it relents although snow-caps still decorate the mountain tops of the north until the early summer. The return of the Arctic summer is like an infusion of vitamins – kick-starting the birds, plants and animals in their breeding, growing and feeding. We invite all our guests to bear witness to this spectacle and participate in The Arctic Awakening!

In Norway, this is a time of celebration and May witnesses the festivities of Norwegian National Day. On the 17th May the coastal communities become a blaze of colour and tradition, and all our ships take part in the parades and celebrations.

The Arctic Awakening
Hurtigruten's spring concept, The Arctic Awakening, will enrich your voyage with exciting shore excursions. Join us as we take you closer to the teeming life in the ocean, the migratory birds and the local inhabitants of the small communities.

Highlights on board
In addition to the amazing scenery, we offer a selection of on board Arctic Awakening activities. As well as our restaurant tantalising your taste buds with seasonal, coastal produce, the ship will also play host to local fishermen in Tromsø and Kjøllefjord who will come on board offering you a taste of Lyngen prawns and a lesson in cod tongue-cutting respectively! There will also be lectures on coastal wildlife and a breakfast performance by a choir in Trondheim.

Summer and the MIDNIGHT SUN

Take time to enjoy the wonder of Norway's Midnight Sun on board one of our ships. Summer is the most popular time of the year for exploring Norway's coast. Thanks to the light during the summer months, the whole country bursts into life. Flowers bloom, rivers fill with fish and waterfalls cascade towards the ocean creating a picture-perfect setting for a summer holiday.

At each port you will experience something different and you can bask at your leisure in the setting sun. You have all the time in the world.

The Midnight Sun
The Land of the Midnight Sun truly lives up to its name. The intense extended daylight above the Arctic Circle lasts around the clock, making every Norwegian 'night' a joy to behold. In fact, you may have to force yourself to go to bed. This natural phenomenon is found in latitudes north of the Arctic Circle, where the sun stays above the horizon for 24 hours. Our summer concept, Summer and the Midnight Sun, offers specially selected shore excursions and a menu based on the fresh ingredients that are found along the coast.

Highlights on board
One of the true highlights of our summer voyages is the northbound diversion into the UNESCO-listed Geirangerfjord. Further north, first time visitors to the Arctic Circle will be 'baptised' by Niord on deck. Shortly after arriving in the Lofoten Islands, you'll have the chance to enjoy a taste of 'Troll Soup' as we sail into the magnificent Trollfjord. By this point of the voyage, you'll also be enjoying the experience of 24-hour daylight. And throughout your journey, the chef and his team in the restaurant will be working their magic with the freshest local ingredients picked up en route.

Exciting summer excursions
- Geiranger Panorama, including Trollstigen Pass
- A Glacier Adventure to Svartisen
- Whale watching, Risøyhamn
- Midnight concert in the Arctic Cathedral
- UNESCO-listed Vega Archipelago

Autumn and THE AUTUMN GOLD

As summer fades and changes to autumn, you can watch the coastline shift colours from one season to another. Along the Norwegian shores the clear air strengthens the reds and yellows that fill the mountainsides, hilltops and woods.

Autumn is a tranquil time on board Hurtigruten; you get the time to enjoy the bright colours, the fresh air and the beautiful scenery we pass. The birds migrate after a productive summer, and the Arctic light shortens. From the deck, framed by an icy blue sky, you can see a sprinkling of early snow on the highest peaks and there's a sense of expectation in the air. Each port and different parts of the coast give you the opportunity to experience something different. The darkness falls gradually as the sun sets earlier and earlier, and if you are lucky the Northern Lights will appear and provide a magical light show.

The Autumn Gold
Our seasonal concept, Autumn Gold, includes numerous on board activities and exciting shore excursions that take you closer to the cultural life, old traditions and local inhabitants. The range of berries and mushrooms in Norway is one of the largest in Europe, and with a little luck you might just find yellow carpets of chanterelles and cloudberries. Nature's pantry is full of delicacies ready for harvesting, and our on board menu, activities and excursions reflect this.

On board highlights
The area around the Hjørundfjord has fascinated visitors for centuries. We sail into this narrow fjord surrounded by majestic mountains and lush, isolated farms. Music is also a part of the Autumn Gold programme. Enjoy music by the Norwegian composer Grieg before departure in Bergen, a mini concert by the Music Conservatory before departing Tromsø and between Vadsø and Kirkenes there will be a performance of Sámi-inspired music. Autumn is harvest time all over Norway, and you get a chance to taste local specialties like reindeer meat and cloudberries on deck. Our seasonal menu offers the best produce from the season and the areas we sail in.

Exciting autumn excursions
- A taste of Norway – Including the Hjørundfjord, Urke and the Union Hotel in Øye
- Visit the Munkholm Island close to Trondheim
- Sámi Autumn - learn about the Arctic nature´s "pantry & pharmacy"
- Arctic Bushcraft in Kirkenes

Sailing with Hurtigruten to Norway's northern reaches, you can experience a magical winter wonderland and hopefully see the mesmerising Aurora Borealis. For thousands of years locals, visitors, artists and scientists in the northern part of the world have marvelled at the spectacular displays that occasionally light up the night sky. Sailing with Hurtigruten will provide the best chances of experiencing this magic colour show as it changes from light green to dark purple flickering across the Arctic sky.

Hunting the Light
Hunting the Aurora Borealis is a major element of the winter journey with us. In the winter, the sun is low on the horizon and north of the Arctic Circle it is below the horizon for some weeks. This natural phenomenon creates stunning shades of light. The term "Hunting the Light" originates from one of our captains. He had observed guests out on deck chasing the most magical of all natural phenomena, the Northern Lights. "Hunting the Light" is our seasonal concept on our winter voyages, where you can experience the many and beautiful types of light visible during the winter months.

On board highlights
Our excursions, on board activities and seasonal menu are inspired by winter and nature's special light show. You can learn more about the Aurora Borealis on our two Northern Lights lectures. There will also be a lecture about the "King crabs from the Barents Sea", held by a local fisherman. We mark the crossing of the Arctic Circle with a fun ceremony for any first timers. Being in the Arctic also improves the chances of seeing the Northern Lights. At the entrance of the magnificent Trollfjord we serve freshly made fish cakes on deck. You can also try ice dipping in the Barents Sea or participate in the fish filleting demonstration on deck. Finnkirka, close to Kjøllefjord, is a rock formation in the shape of a church. This old Sámi sacrificial place is illuminated by 29 strong floodlights, making it an awesome sight.

A treat for your TASTE BUDS

04:00 am in Sigerfjord, Vesterålen: The deep, salty, cold Arctic Ocean, close to river estuaries with fresh water are the perfect conditions for the Arctic char, and local fishermen are about to go in search of their catch of the day.
17:00 pm on board a Hurtigruten ship: Our guests enjoy the finest Norwegian cuisine. The Arctic char that was caught this morning is on today's menu.

Enjoy the taste of nature
Norway's culinary traditions have much in common with the scenery of the coastline. It is always fresh, distinctive and full of variety. We have always strived to give our guests a truly unique and authentic experience, and local produce and old food traditions are incorporated into every element of the culinary experience on board. Visiting 34 ports, Hurtigruten have an exceptional opportunity to get fresh produce from local suppliers every day. This means delicious new and fresh ingredients, both from the coastal and inland areas.

"As a chef, I am in great awe when working with local suppliers, because they are so passionate about their produce. Meeting them, hearing their history and knowing that these are hand made products of exceptionally good quality makes me proud and humble. Holding an ingredient that does not look like it was made in a factory and is a little bit imperfect but smells heavenly makes our job a pleasure. Also our meals have to visually match the divine beauty of the landscapes we pass. It has to look (and taste) delicious, but at the same time have a 'Vikingy' feel - a bit rough and ready. We like to enhance the different tastes, making every meal a great experience. Surprise is another favourite element of ours, mixing old traditional recipes and tastes with something new. That is always appreciated by our guests," – *chief culinary chef, Eirik Larsen on Hurtigruten.*

Real food experiences
To enhance this unique concept, you will have food experiences not only in the restaurants, but also through storytelling. As part of our 'Autumn Gold' concept, we serve cloudberries out on deck. These berries have been hand-picked by an old lady in Finnmark, and she delivers them to our ships. Experiences with Hurtigruten don't get more real than this.

A menu that changes with the seasons and areas in which we sail
Based on the season's best ingredients, our chefs create either three-course dinners or lavish buffets. Being a coastal voyage, seafood often dominates the menu, accompanied with fresh vegetables and delicately flavoured sauces. Each dinner ends with traditional desserts, like home-made cakes, puddings, berries or sorbet. Breakfast and lunch is served buffet style. Our restaurants are fully licensed and the set dinner at your reserved table becomes an occasion to exchange your daily experiences, while savouring food crafted by the coast. To accompany each meal you can choose from our comprehensive selection of red and white wines, beer, aquavit and soft drinks. Afterwards you can enjoy fresh coffee in any of the lounges, drinks in one of the bars and the beautiful landscape.

THE NORWEGIAN COAST

LIFE
ON BOARD

YOUR HOME ON THE SEAS

From the moment you embark your Hurtigruten coastal ship, you will notice the atmosphere on board. The peace and tranquillity of the scenery gliding past is mirrored in the ship's cafe, in the panorama lounge and out on deck. The name of the game is very much relaxation and reflection. Everything takes place at a leisurely pace.

The feeling of camaraderie among your fellow adventurers is especially evident at meal times, in the bars and lounges in the evenings and prior to docking when people congregate at reception for excursions or just a taste of dry land. At the smaller ports, many guests choose to head out on deck to enjoy the sight of the quayside suddenly coming to life with fork-lift trucks whizzing between the ship and the port's warehouse with supplies, harbour workers sharing jokes and stories with our crew or local people welcoming or bidding farewell to friends and family. These are the moments that no other Norwegian voyage can recreate.

When a point of interest is about to occur (perhaps a stretch of coastline, a particular building or special scenic sight or even a dazzling display of the Northern Lights) an announcement will be made over the tannoy, ensuring you have enough time to put on a coat and gloves and head out on deck to experience it yourself.

There's plenty more to experience on every Hurtigruten voyage, so settle in, get comfortable and enjoy one of the world's great journeys.

VOYAGE OF THE VIKINGS

The Vikings – a people hell bent on barbaric raiding and pillaging or forward-thinking, philanthropic tradesmen and explorers?

Join us on a educational voyage of discovery and find out more about these fascinating people, their empire and their legacy. During your 12-day Classic Round Voyage, British Museum Curator and Viking expert, Gareth Williams will be giving lectures on board as well as leading tours and excursions on land.

As you sail from Bergen to Kirkenes and back, your on board lecture programme will include themes such as 'Who were the Vikings?', a socio-economic look at the Vikings as a people; 'Viking Treasures', a talk about the Viking's drive for wealth and fortunes; and 'Vikings and the 'North Way': The coastal voyages of Ottar', a history of Ottar, the northern chieftain who left accounts of his voyages north and east to Russia.

We'll follow the regular Hurtigruten route, calling at the old Viking capital, Trondheim. Here, you will join our Trondheim with Nidaros Cathedral excursion taking you under the skin of this charming city and its magnificent Gothic house of worship. Founded around 997AD by the Viking King Olav Tryggvason, Trondheim has grown to be Norway's second largest city but has retained the charm and warmth of a provincial town with its handsome civic architecture, colourful wooden wharfs and the wooden royal palace of Stiftsgården. Nidaros Cathedral is the final resting place of King Olav who was later canonised and is now Norway's patron saint.

We'll also sail through the Lofoten and Vesterålen Islands, an area rich with sagas of the Norsemen. It is here that you can enjoy our Viking Feast excursion (included in your voyage). Join the chieftain and his wife in a reconstruction of the largest Viking longhouse ever discovered. Here you will be regaled with stories and given traditional Viking food & drink.

From here, we sail the coastline north to Kirkenes on the Russian border. En route we'll be stopping at the friendly university town of Tromsø, the world's northernmost town, Hammerfest and the gateway to the North Cape, Honningsvåg.

As we make our way south, a midnight call in Tromsø allows you the chance to go ashore and enjoy the spectacle of the midnight concert at the Arctic Cathedral.

Further down the coast we enjoy a daylight sailing through the spectacular narrow channel, the Raftsund, a possible diversion into the even narrower Trollfjord and impressive vistas of the Helgeland coast with the Seven Sisters mountain range.

Extend your stay in Oslo
At the end of your voyage, it is possible to extend your stay with a visit to Norway's modern capital, Oslo and enjoy a visit to their Viking Museum, home to genuine relics of the Viking age including a full-size longboat.

He is currently writing an academic textbook on Viking warfare and military organisation.

LECTURES MAY INCLUDE

Who were the Vikings?	This lecture provides an introduction to the Vikings, looking at the changing interpretation of the word 'Viking' over time, and providing an overview of Scandinavian society and the breadth of Scandinavian contacts and achievements in the Viking Age.
Viking Treasures	Vikings have been seen as both raiders and traders, but both raiding and trading are driven by the desire for wealth. This lecture explores the notion of wealth in the Viking Age on the basis of the gold and silver treasures that they left behind them, set in their historical context.
Vikings and the 'North Way': The coastal voyages of Ottar	The modern name Norway derives from the Old Norse words for 'North Way', which was used to describe the sailing route up the west coast. A unique account from the late 9th century describes the lifestyle of Ottar, a chieftain from northern Norway, and his voyages round the northern tip of Norway to Russia, and south to the Oslo Fjord and Denmark. This lecture explores Ottar's account, and how it fits with archaeological evidence.

EARLY BOOKING BENEFITS

Booking early carries many advantages. It gives you the opportunity to select the ship, date and cabin grade of your choice and since we operate a flexible pricing system then generally speaking the earlier you book the lower the price.

WHAT HAPPENS IF I MISS THE EARLY BOOKING DEADLINE?
After the early booking period comes to end our flexible pricing system starts to operate which means that they may increase.

HOW DOES OUR FLEXIBLE PRICING SYSTEM WORK?
From the launch of this brochure right up until departure we take bookings for all 2015 sailing dates across all cabin grades. Those customers who want to secure specific dates and cabins book early, since some dates and cabins are more popular than others they can sell out quickly. Our pricing systems recognises this and automatically adjusts prices accordingly, as a result prices can increase for dates and cabins with limited availability.

FROM AND TO PRICES IN OUR PRICE GRIDS
In this brochure on our price grids we quote 'from' and 'to' prices. Apart from some special offers on limited dates and with special terms and conditions the 'from' prices quoted in this brochure will not be reduced, after the early booking deadline passes prices may increase on a stepped incremental basis up to the level of the higher 'to' price. Whilst they may not reach the 'to' price if you want to secure your preferred date and cabin at the best possible price then our advice is to book as early as you can.

OUR NORWEGIAN COASTAL SHIPS

WELCOME ON BOARD

All of the 11 ships that sail along the Norwegian coast vary in size and age from the MS Midnatsol built in 2003, to the traditional vessel MS Lofoten (1964), still a favourite for many returning guests.

All of our ships has a different style and something unique to offer. Despite their differences, they provide the same intimate travel experience, with their own informal Hurtigruten atmosphere.

All ships include comfortable lounges and ample deck space affording perfect views as you glide through some of the world's most beautiful and untouched coastal scenery. They all have a small library where you can immerse yourself in a good book, and a café serving snacks and drinks 24 hours a day. Some even have Jacuzzis and a fitness room.

As you board your Hurtigruten ship you will be taking part in a long tradition of transporting people and cargo. Hurtigruten ships are working vessels operating a regular service to a set timetable. Our ships carry goods, vehicles and passengers between ports, by night and day, as an integral part of Norwegian daily life.

Comfortable ships with a wide range of cabins

Our welcoming and informal atmosphere, combined with a wide choice of cabins on all our ships will ensure that you experience a comfortable, scenic voyage. The cabins vary in size and location, sometimes within the same grade. As a general rule, outside cabins on the higher decks have a picture window while the ones on the lower decks have portholes.

MS MIDNATSOL

The name Midnatsol (Midnight Sun) is something to live up to, and this ship, dedicated to the Norwegian summer, does just that. The interior's bright, colourful décor is inspired by the warm sunny climate, a motif also reflected in the many pieces of Norwegian modern art on display. MS Midnatsol was put into service on 15 April 2003 and is the fourth Hurtigruten ship to bear this name. The ship has a strong environmental profile and a modern design, with Norwegian materials used extensively throughout its interiors. Together with her sister ship, MS Trollfjord, MS Midnatsol is among the newest in the fleet. What characterises both ships is the large, two-storey panorama lounge above the bow and the large glass expanses that allow natural light to enter as well as providing extraordinary views. There are also 23 beautifully appointed suites, some of which have a balcony.

MS TROLLFJORD

The ship is named after the famous Trollfjord, situated between the Vesterålen and the Lofoten Islands. Trollfjord is one of the highlights of the voyage south, and is famous locally for 'The battle of the Trollfjord' which took place here in the winter of 1890. The ship has a comfortable interior, with an extensive use of Norwegian wood and stone. MS Trollfjord´s maiden voyage was in 2002 and she is one of the newest ships in the Hurtigruten fleet. Being MS Midnatsol´s sister ship, they share many of the same characteristics, such as the beautiful panorama lounge and suites. On board the ship you will discover original paintings by the Lofoten artist Kaare Espolin Johnsen, paintings that were originally on board the old Hurtigruten ship MS Harald Jarl.

Between 2002-2007 MS Nordnorge gave her guests memorable experiences in Antarctica. On board MS Nordnorge guests can admire the work of artists such as Johanne Marie Hansen-Krone, Ellen Lenvik and Dagfinn Bakke. MS NORDKAPP

MS Nordkapp is named after one of the highlights of the Hurtigruten voyage, the northernmost point of mainland Europe, the North Cape (71°N). It has attracted explorers since it was named by Richard Chancellor who was passing the cape in 1553 while searching for a Northeast Passage. The ship was built in 1996, and on board you are surrounded by artworks from the renowned Norwegian artist, Karl Erik Harr. MS Nordkapp is part of the ship class built in the 1990s and has been upgraded with junior suites and Jacuzzis. The godmother of MS Nordkapp is Norway's Queen Sonja.

MS Polarlys was built in 1996, and she is the third ship in Hurtigruten to have this name. Polarlys is the Norwegian word for polar light, a name given to the special Arctic phenomenon we chase in our winter programme 'Hunting the Light'. MS Polarlys is a stylish ship, furnished with mahogany panelling, polished brass, and a choice selection of Norwegian contemporary art. Together with the extensive use of wood in the public areas, this has created a unique maritime atmosphere.

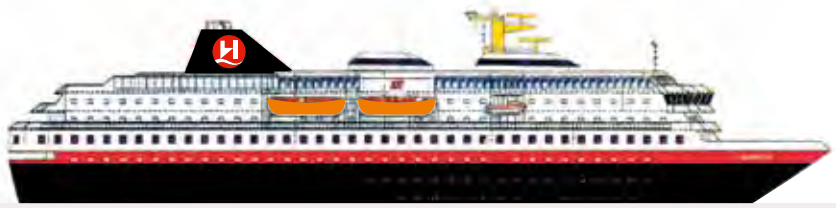
MS NORDLYS



MS Nordlys is named after the spectacular natural phenomena visible in these waters between October and March. Nordlys, meaning the Northern Lights (or Aurora Borealis), which appear in the sky of the Northern Hemisphere as green and sometimes red flaming 'waves' and will leave you with memories that will last forever. MS Nordlys was built in 1994 and is the third ship in Hurtigruten to have this name. The ships art, décor and colours are all inspired by the Northern Lights phenomenon. With her light and delicate interior, Norwegian artists have created a unique and distinct environment on board. Passengers are encouraged to relax in the ship's elegant maritime atmosphere, countless lounges and comfortable reclining chairs.

This ship was delivered to us in 1993, 100 years after our founder completed his first ever Hurtigruten voyage. On board there is beautiful art by the famous Harr family. MS KONG HARALD

Although this ship is named after today's King of Norway, Harald, you will find other famous Norwegians on board as well: The bar is named after Nobel Peace Laureate, the Norwegian polar pioneer Fridtjof Nansen and the café is named after explorer Roald Amundsen. As with MS Richard With, MS Kong Harald was launched in 1993 to mark Hurtigruten´s centenary. In the ship's interior you will see decorative details of the King's Crown emblem.

MS VESTERÅLEN

MS Vesterålen was built in 1983 and is named after the first Hurtigruten ship to sail in 1893, DS Vesterålen. Vesterålen is also the name of the area in which Hurtigruten's first homeport, Stokmarknes, is situated. Vesterålen lies just north of Lofoten and is home to some of the most beautiful scenery of the coastal voyage. The ship is one of the smallest ships in the fleet. She was upgraded both in 1988 and 1995, and is characterised by her bright, cheerful public areas and lounges. Throughout your voyage you will enjoy views from the panorama lounge and notice the extensive art collection on board. With the limited passenger capacity, a voyage on MS Vesterålen is truly something special.

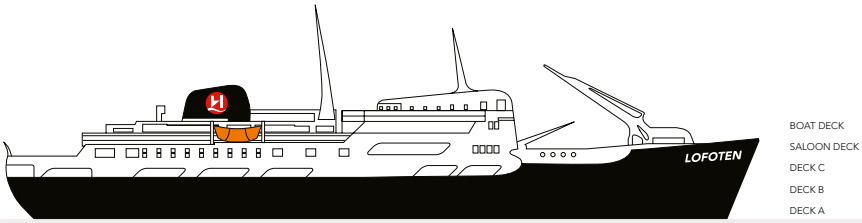
MS LOFOTEN



MS Lofoten, our old time favourite, was launched in Oslo in 1964, and provides you a voyage of real nostalgia and intimate informal atmosphere. The ship is named after the Lofoten Islands just north of the Arctic Circle, famous for their dramatic scenery and often described as 'a master-piece'. MS Lofoten is the second Hurtigruten ship to carry this name. She was refurbished and refitted in 2003, but most of the original style and atmosphere are preserved. With unique lounges and panoramic decks, this 'old lady' is simply incomparable. The cabins are plain, but very cosy.

PRACTICAL INFORMATION

Correspondence
If you make your booking through a travel agent all communication between you and Hurtigruten must be via that agent. If you book your holiday direct with us all correspondence will be sent to the Lead Passenger. Please quote your booking reference number in all communications. When you or your agent contact us we will usually confirm your holiday at the earliest opportunity and advise current flight times, prices, including any applicable supplements or extras, etc. For high season dates, when demand is greater, or if you book within eight weeks of departure, we may have to request your cabin, flight or hotel space and it may take slightly longer to confirm your holiday. An invoice will be sent to confirm your arrangement. If you are travelling with friends but would each like to receive separate documents please advise us at the time of booking. Travel documents are generally sent approximately 7–14 days prior to departure.

Special requests
If you have any special requests (e.g. dietary or medical), please inform us at the time of booking. We will do our best to meet such requests but cannot guarantee to do so and in no circumstances will any such request be accepted by us so as to form part of our contractual agreement.

Mobility
We are happy to welcome passengers who are not fully mobile and all ships (except MS Lofoten) have at least one cabin equipped for travellers using a wheelchair. Our sales consultants will also try to book appropriate hotel rooms. Passengers who use a wheelchair must bring their own, standard size, foldable chair. Guests who are able to navigate around the ship unaided in a wheelchair need not to have a travel companion. Those who need assistance may need to be accompanied. Please discuss with your booking agent. In mainland Norwegian ports there is a ramp for embarkation/disembarkation. Excursions have not been adapted specifically for passengers with walking difficulties. Please contact us or the Tour Leader when you are on board who will be able to advise which excursions are suitable. It is essential you advise us of special requirements at the time of booking to enable us to make the necessary arrangements for you.

Changes to the itinerary/excursions
All routes and excursions are provisional and subject to change – weather, sea and ice conditions may affect the itinerary.
As Christmas approaches itineraries may change in order for ships to host dinners and celebrations for local communities. Please take care that you are back in time on board, especially when your ship arrives with a delay but departs in time to keep the schedule. The departure time is displayed at the gangway. Please note that ships can't wait for belated passengers. If you miss your ship you need to arrange by yourself and at your own expense the trip to the next harbour.

Minimum numbers
Some holidays are subject to a minimum number of participants to enable them to take place. Should the minimum not be reached we will advise you at least 60 days prior to your departure, when we reserve the right to cancel the holiday and refund all monies paid to us. Alternatively, you may choose another holiday with us but if the alternative arrangement is at an additional cost, the difference will be payable by you.

BEFORE YOU GO

Passport and VISAS
All guests have to present a valid passport when they check-in. Passengers need to contact their relevant embassy, consulate or travel agent regarding any necessary visas.

Vaccinations
At the time of printing there are no compulsory vaccinations or health requirements for travelling to Norway. It is however the responsibility of all passengers to ensure they comply with any health requirements at the time of travel. We suggest you consult your doctor or relevant health authorities about any precautions you should take with regard to Deep Vein Thrombosis (DVT).

Currency in Norway
We suggest that you take a small amount of local currency (Norwegian Kroner-NOK) in cash. Major credit cards are widely accepted except possibly at smaller businesses. You may be asked to provide identification when you pay by credit card or exchange money. Please also see: Payment options on board under **On board information**.

GENERAL

Brochure Accuracy

The information and descriptions contained in this brochure have been checked by our staff and/or local agents to ensure they are correct. However, changes may occur after the date of publication and there may be occasions when Hurtigruten or local suppliers may withdraw some facilities. Should we become aware of any significant change which may be considered to have an effect on the enjoyment of your holiday we will do our utmost to advise you. Public holidays and religious festivals may also affect the availability of resort and hotel facilities. Tourist offices can provide details of such events. Some areas we visit are very remote, affected by prolonged cold weather or difficult terrain. Provision of facilities will be subject to local conditions, and customs and lifestyles may differ from those to which you are accustomed.

Hotel accommodation

The standard of the hotels we use is equivalent to 3 or 4-star. There is no official hotel rating system in Norway. All rooms have private facilities (except for the Snow Hotel in Kirkenes). Single rooms may be smaller and less conveniently situated and may be double rooms for sole occupancy or purpose built single rooms. Hotels may charge for some facilities e.g. saunas.

Tour arrangements

The voyages and tours in this brochure are based on independent travel, however all ships and many of our featured hotels have information staff who will advise you on excursions and offer general assistance. Some of our holidays are part escorted.

ON BOARD INFORMATION

Activities on board
The emphasis on board is on relaxation and getting away from the commercial entertainment which is so often a part of conventional cruises. Our aim is to get closer to unique environments and share the experience with fellow passengers. As a part of Hurtigruten's seasonal product concepts, we offer some interesting on board activities, demonstrations and presentations during the voyages. The activities which take place both inside the vessels and outside on deck, have relevance to the season we are sailing in. It is up to the guest to join and the activities will be announced in our day to day programmes or announced on board.

Cabins
The times for checking out of cabins are according to the ship's timetable and may vary from day to day. On arrival in Bergen, Kirkenes and Trondheim (southbound) special rules apply:

- Cabins for departure from Bergen are available from 18:00 hrs.
- Check-out on arrival at Kirkenes is before 8:00 hrs.
- Check-out on arrival at Trondheim (southbound) is before 8:00 hrs.
- Check-out on arrival at Bergen is before 10:00 hrs.

Please contact the reception for more information. If you are travelling in a suite, different check-out timings may apply, please contact the reception. Please ask our reservations team for advice on the best cabin location for you.

For our Bergen - Bergen and Bergen - Kirkenes - Trondheim voyages and all suite bookings you will be able to choose a cabin number at no extra charge (subject to availability), for all other voyages 5 nights or longer you have the option to choose a cabin number at a fee subject to availability. Please see the applicable price panel for details of such fees. For all other voyages and if you decide not to pay the separate fee, your cabin number will be assigned upon embarkation.

Cafeteria
Hot and cold drinks and snacks may be bought in the cafeteria, usually open 24 hours a day. During the winter, times are advised on board.

Information regarding luggage handling and disembarkation at other ports is available on board.

Gratuity policy
It is not common practice to tip on Hurtigruten ships on the coastal voyage, but if you feel that crew members should be rewarded for providing exceptional service, tip boxes are placed in the restaurant together with envelopes.

Information
There will be an information and safety meeting on board on the evening of departure from Bergen and Kirkenes. Each ship has a Tour Leader on board who sells and advises on excursions, issues a daily programme and news bulletin, and makes announcements regarding places of interest, disembarkation, etc. Occasionally this service may be carried out by the reception. All Tour Leaders speak Norwegian, English and German.

Internet
There is an internet café on board all ships except MS Lofoten. There is wireless networks in most public areas to connect laptops, mobile phones etc. Be aware that the bandwidth is narrow and reception intermittent.

Languages
Norwegian and English are the official on board languages. The personnel at the reception and some of the service crew often also speak German. The Tour Leader speaks Norwegian, English and German.

Laundry
Laundry rooms with washing machines, dryers and irons are available on most ships. Tokens can be purchased at reception.

Meals
The usual meal times are: breakfast from 07:30 to 10:00 hours (open sitting); lunch from 12:00/13:00 hours (open sitting); dinner from 18:30/19:00 hours (assigned seating). On the evening at departure day from Bergen a buffet dinner with open seating is served and the information about the table assignment for the rest of the voyage can be find in the information envelope handed over at check-in. During busy periods, there may be two sittings, the times of which will be shown on board. Full board begins with a buffet dinner on departure from Bergen and ends with brunch on the arrival day back in Bergen. The food is Norwegian and breakfast is buffet style with a selection of cold meats, cheese, eggs, cereals and fruit. Lunch is the famous cold table with a choice of fish dishes, cold meats, salads, a selection of hot dishes, desserts and fruit. Dinner is a three-course set meal, please note there is not usually a choice of menu. Occasionally a cold table may be served in the evening and the set meal at lunch time. All vessels are fully licensed; the prices on board are the same as in mainland Norway. Wine and/or water packages may be purchased on board for the restaurant where only bottled mineral water is served. In the café and bar glasses of water are complimentary.

Medical asssistance
There is no doctor or pharmacy on board. However, officers are trained in first aid and can provide emergency medical assistance. The ships are also close to land.

Payment options
Norwegian currency is used on board. Most major currencies may be exchanged. Visa, American Express, MasterCard and Diners Card are all accepted. A cruise card can be obtained and used for payment for extras and settled at the end of your voyage. This may be subject to change.

Porterage
Luggage handling is not included in the cost of your holiday. Apart from Bergen you need to carry your own luggage on and off the ship.

Safety
It is a safety requirement that all Hurtigruten passengers attend a compulsory safety briefing in Bergen before the ship leaves port. After check in and before embarkation please go to the first floor of the terminal building where the safety briefing will be given at intervals by Hurtigruten staff. This will last between 10 – 15 minutes with the first taking place at 15:45 (embarkation is from 16:00, also from the first floor). The talk will include a demonstration of how to put on a life jacket and the instructions to be followed in the unlikely event of an evacuation or other emergency during the voyage. The briefing is compulsory for all passengers including those who have travelled with Hurtigruten on previous occasions. There will be an opportunity to ask questions if you have any concerns. When you have completed the safety briefing please embark straight away. The last briefing will take place at 19:30. Guests who arrive after this time will be required to attend a safety meeting on board at 20:00 before the ship leaves Bergen. Please familiarise yourself with the emergency procedures as shown in the cabins (there is a diagram on the cabin door and in public areas), and ask at reception if in doubt. In many ports there may be a good deal of activity on the quay with cars joining/ leaving the ships and/or goods being loaded or unloaded. Please be alert to such traffic when embarking and disembarking. Take care during winter months when it is icy underfoot, particularly on the outside decks and when disembarking the ship or alighting from coaches. Ice spikes and other winter clothing can be purchased in the ships store. Do not carry large amounts of cash and keep valuable items, including mobile telephones and cameras, out of sight.

Shops
There is a shop on board all ships. They sell souvenirs, knitwear, books, postcards, postage stamps and a limited supply of toiletries. On MS Lofoten this service is handled by the cafeteria.

Pre-booking excursions, where possible, is recommended as only remaining places will be sold on board. Excursions booked on board will be payable in Norwegian Kroner and the price may vary as a result of exchange rate fluctuations. Pre-booking of shore excursions is possible until 4 weeks prior to departure. If you choose to pay by credit card, pre-bookings can be made until 2 weeks prior to departure. Please bring your driving license if you have pre booked or are planning to go on any of the snowmobile or ATV excursions. Excursions and their contents are subject to maximum/minimum numbers, sailing times and weather and/or local conditions. Language is mostly English and Norwegian, no guarantee for other languages. If booked excursions have to be cancelled you will receive a refund on board in NOK.

Smoking
Smoking is only permitted in designated areas on the outsides decks. It is not permitted when the ships are in port and fuelling. The staff will advise when its not allowed to smoke outside. Smoking in the cabin is prohibited and subject to a fine.

Stabilisers
With the exception of MS Lofoten, all of our vessels are equipped with stabilisers. On the Norwegian coast the ships enter the open sea, for a few hours, on only a few occasions during the whole voyage. The majority of the time the ships sail between mainland Norway and the coastal islands where the sea is generally calmer.

Suite service
We are pleased to introduce a range of extras if you book a suite on board one of our ships. They include a welcome present, tea/coffee making facilities in your cabin, complimentary free tea/coffee on board throughout your voyage and late check-out. For a fee you also have the option to have breakfast served in your cabin and the use of a minibar. If there is capacity available you may book and pay for an upgrade to a suite when on board.

Telephone/mobile phones
Private mobile telephones may be used on board although reception may vary. Check with your provider for costs when using your phone abroad.

What to wear
On board dress is informal. Although some passengers choose to change for dinner the dress code is casual rather than formal. The weather in Norway can vary during the course of each voyage or even during the day. To cater for these variations we recommend the layered dress approach that enables you to adapt to changes in temperature, wind and precipitation conditions easily. For all voyages we advise you to take breathable rain and windproof clothing. A warm hat, gloves, scarf and thermal clothing can be useful, together with thermal underwear, during the winter months. On land where it may be icy, sturdy shoes are important for shore excursions and a walking stick/trekking pole may be useful. You should pack a pair of UV protective sunglasses, even during the winter as the reflections of snow and ice can be harmful to the unprotected eye.

Working ships
Hurtigruten ships are working vessels operating a regular service to a set timetable. Our ships carry goods, vehicles and passengers between ports, by night and day, as an integral part of Norwegian daily life. Our ships are calling at ports around the clock. You may expect some noise and vibration in a few cabins during loading of goods. This varies depending on the location of your cabin and the type of ship. Also, noise affects people differently and what may be a problem for one person may not be a problem for another. Please ask our reservation team for advice on the best cabin location for you.

VOYAGES OF GREAT CONTRASTS

JOIN US IN THE POLAR EXTREMES

Our Explorer ship MS Fram continues the Norwegian tradition of exploring the white areas of our planet, sailing the waters of Antarctica, Greenland, Iceland, Spitsbergen and Norway. MS Fram is small enough to reach the interesting sites, yet big enough for comfort even in rough weather. Being on an Explorer voyage means travelling in remote regions where weather and ice guides the route. Voyages run to flexible schedules and we make the best of our conditions at hand – and of course, safety always comes first.

Circumnavigation of Iceland

THE LAND OF FIRE AND ICE

Join us and explore mythical Iceland. Our journey starts in Reykjavik, the world's northernmost capital. After embarkation we set course north and plan for a clock-wise circumnavigation of Iceland. During the next eleven days we will explore the Saga Island to its full, and visit a variety of islands, towns and settlements.

In Grundarfjörður we'll enjoy diverse landscapes of lava and rock formations, glaciers and volcanoes, as well as hot and cold springs. After visiting Stykkishólmur, Flateyri and Ísafjörður, we use Polarcirkel boats to get close to the bird cliffs with puffins, eiders, guillemots and Arctic terns in Vigur. We also spend a morning in the Hornstrandir area, where the Hornbjarg cliff is one of the greatest seafowl habitats in Iceland.

Akureyri is close to many of Iceland's most renowned natural and beautiful areas. After the visit here we sail towards Grímsey, and use Polarcirkel boats to reach this grassy island. The next day we will explore Húsavík, the oldest settlement on Iceland and the wild and beautiful Langanes peninsula. In Djupivogur you have a chance to see the biggest glacier in Europe, Vatnajökull. We will try to visit the volcanic islands Surtsey and Heimaey as well. Both of them are habitats for countless birds. As we return to Reykjavik, we see the end of this journey.

Spitsbergen, North East Greenland & Iceland

NATIONAL PARK EXPEDITION

Join an extraordinary and exclusive expedition taking you to three Arctic Islands; Spitsbergen, Greenland and Iceland. Experience North-East Greenland National Park, the largest and least visited national park in the world. Experience the extraordinary landscapes and the subtle differences between the three islands and enjoy a choice of different excursions here. There is also a chance of seeing the Northern Lights and the King of the Arctic, the polar bear.

This voyage starts in the Norwegian settlement of Longyearbyen, often referred to as the capital of Svalbard. Variations in itinerary and landing sites are normal - in the High Arctic you go with what conditions at hand dictate. At 78°55'N we will visit Ny Ålesund, one of the world's northermost year-round communities.

In North East Greenland National Park we may encounter wildlife like musk oxen, Arctic hare, the Arctic fox or the very rare Arctic wolf. Ittoqqortoormiit or Scoresbysund is our last call in North East Greenland. This is the most isolated town in Greenland. Our itinerary normally includes visits to the museum, church, a photo exhibition and even the launch of a weather balloon, all with local guides.

With Greenland behind us we set course towards the western fjords of Iceland and plan for three days exploring the area, including Grundarfjörður, Flateyri and Ísafjörður. Our optional excursions offer a variety of experiences from tastings to hikes. As we arrive in Reykjavik and our adventure has come to an end.

Iceland, Jan Mayen and Spitsbergen

CLIMATE VOYAGE

This expedition takes us from Iceland towards the Svalbard Archipelago, following the Global Climate Conveyor Belt. Crossing the Barents Sea we may encounter a variety of large-bodied marine mammals. We will also hopefully make a stop at one of the most isolated islands in the world, the exotic and beautiful Jan Mayen.

Reykjavik, the capital of Iceland is the starting point of the Climate Voyage. Our route is the same as the Vikings pioneered more than 800 years ago. Arriving in Ísafjörður you can take a stroll around the town or join one of our many excursions. After sailing across the open ocean, we head to Jan Mayen - one of the most isolated islands in the world. If weather and sea conditions permit, we will visit this exotic outpost.

Our first stop in Spitsbergen is Ny Ålesund, one of the world's northernmost permanently populated communities. Depending on ice conditions we will make a try to cross the 80th parallel. If we are lucky we will spot the walrus, whales and polar bears that use these waters as hunting grounds. Isfjord is the largest fjord system in Spitsbergen almost slicing the island in half. After a last expedition landing, we will wrap up everything with festivities and Polar barbecue on deck, or on a secluded bay. Then we sail towards Longyearbyen where the Climate Voyage will end.

Circumnavigation of Spitsbergen

IN THE REALM OF THE POLAR BEAR

This voyage takes you on a circumnavigation of the largest island in Svalbard. Our goal is to go above the 80th parallel, showing you the great eastern nature reserves and some of the most spectacular highlights of the Arctic. As well as an untouched wilderness, Spitsbergen is the epitome of biodiversity where the tundra and towering glaciers herald a staggeringly rich array of natural and cultural treasures.

This voyage is one of a kind. Arriving at North-West Spitsbergen National Park, MS Fram is small enough and uses 'clean' petrol to allow us to visit a multitude of landing sites. Before leaving the ship we will give you a proper introduction on how to explore the land with utmost respect for the vulnerable and exotic wildlife and nature. Kayaking, trips with our Polarcirkel boats, hikes and other activities on land will be offered in the areas near Kongsfjord, Ny Ålesund, the Monaco Glacier and Magdalenefjord.

We will also spend some days exploring the Eastern Svalbard Nature Reserves and South Spitsbergen National Park. Places we visit include Sorgfjord, Alkefjell, Kapp Lee and Storfjord.These two large nature reserves in East Svalbard were established to protect some of the most pristine High Arctic environment on Earth. In Eastern Svalbard the density of polar bears is higher than other areas of Svalbard – now it's just up to you to spot one!

Spitsbergen & Norway

POLAR BEARS, ISLETS AND FJORDS

This journey will take you from Spitsbergen through the hidden gems of coastal Norway before ending in Bergen. Discover the fascinating history of explorers and whalers, experience the wildlife of the Arctic and enjoy the iconic coast of Norway. On this voyage you will visit isolated islands, settlements and charming fishing villages, some only reachable by boats.

Settlements, national parks and exciting wildlife

After an overnight in Longyearbyen, we visit the Russian settlement of Barentsburg with its industrial architecture and genuine Russian atmosphere. North-West Spitsbergen National Park is scattered with islands, fjords and has a long history of exploration. See a whaling station from the 16th century, including a graveyard for the whalers that died during the first 'oil gold rush'. Moffen is a high latitude islet, above the 80th parallel and is popular with walrus. On our way to the Norwegian mainland, and halfway between Spitsbergen and the North Cape we visit the isolated Bjørnøya.

The diversity of the Norwegian coast

Upon reaching Norway we call at Tromsø, the Gateway to the Arctic. This lively, colourful town is rich in Arctic history and surrounded by beautiful mountain views, blue fjords and hundreds of islands. Our stay in Lofoten starts with a visit to the magnificent Trollfjord before we visit Å, one of Norway's most authentic traditional fishing villages. We will also call at several of the small islands along the Helgeland coast before our journey ends in Bergen.

THE LAST UNTOUCHED CONTINENT

ANTARCTICA

LIKE NOTHING ELSE ON EARTH

Antarctica is nature at its most sublime and haunting; an endless white wilderness. The landscapes here have remained as awe-inspiring and unchanged as the day that man first set eyes upon them. It is the coldest, driest, highest and cleanest continent on Earth, and it is also teeming with life.

Explorer voyages

ANTARCTICA
October to March

ANTARCTICA

Exploring Antarctica is considered extreme for many. This is where the elements rule, and the weather, wind and ice conditions will determine our schedule. Safety is paramount and the captain will decide the final sailing itinerary during the voyage. This is why every voyage is unique, and the voyages described on the next pages only are just an indicator of what we hope to archieve.

LANDINGS

Antarctica is home to millions of penguins and thousands of seals, and is a rich feeding area for large number of whales. There is no hunting here, and the animals are not afraid of humans. We sail in the wake of the great explorers, take only photos and leave only footprints. These are some of the possible landing sites in Antarctica, depending on your voyage.

Deception Island,
South Shetland Islands
Deception Island is a distinctive ring-shaped volcanic caldera, with a navigable opening into the flooded interior. We go ashore in the natural harbour within that includes Whalers Bay, home to an abandoned whaling station as well as a derelict British base.

Half Moon Island,
South Shetland Islands
Enjoy a stay on this staggeringly photogenic island. It is blessed with some of the most spectacular Antarctic scenery imaginable. Half Moon Island is a glittering gem amongst these island treasures. We will explore the serrated and creviced cliffs that are home to a large colony of chinstrap penguins, as well as Antarctic terns, kelp gulls, snowy sheathbills, Wilson's storm petrels and several species of seals that regularly visit the island.

Yankee Harbour,
South Shetland Islands
Early sealers used Yankee Harbour on Greenwich Island as a frequent base of operations. It provided a natural safe haven, and remnants of those early days can still be seen littering the shoreline. One of the main sights here is the large colony of Gentoo penguins, estimated to be 4,000 breeding pairs.

Cuverville Island
Situated in the scenic Errera Channel, Cuverville Island boasts the largest known colony of Gentoo penguins in the Antarctic Peninsula. We will sail through the narrow Errera Channel, to and from Cuverville, and see the icebergs that have become trapped and grounded in the nearby shallows.

Neko Harbour
The Gentoo penguin colony lies nestled in Andvord Bay, surrounded by the mountains and high glacier walls of the peninsula. Neko is one of the rare places in this area where we actually land on the Antarctic mainland.

Paradise Harbour
Paradise Harbour offers another rare opportunity for a mainland landing and some of the finest vistas the Peninsula has to offer, as well as a research base and penguin colonies.

Lemaire Channel
This 11km long and 1.6km wide channel is one of the most beautiful passages in Antarctica. Sailing through offers spectacular views and amazing photo opportunities.

Petermann Island
Located in the picturesque Penola Strait, this a great spot for iceberg- and whale spotting, with views across the channel to the Antarctic Peninsula.

Port Lockroy
The British base of Port Lockroy on Goudier Island has become one of the most popular sites in Antarctica, and our visit here offers a unique peek into life in an Antarctic base in the 1950s.

Wilhelmina Bay
Enjoy the sights of mountains and high glaciers around Wilhelmina Bay. We will go ashore and see dramatic scenery and sculpted ice from tiny floating pieces to large bergs. The bay is a choice feeding ground for whales and seals and therefore was a rich hunting ground for whalers of the past.

Antarctic Sound
The huge ice shelves of the Antarctic continent give birth to mile-long tabular icebergs. The strong currents of the Weddell Sea bring these massive flat-topped bergs north into the Antarctic Sound at the northeast of the Antarctic Peninsula, and we will hopefully enjoy this breathtaking sight as we sail through.

Brown Bluff
Brown Bluff lies on the coast at the tip of the Antarctic Peninsula. The 745m high, rust-coloured bluff is volcanic and the beach is peppered with lava 'bombs'. The wildlife we will see up close here includes Adélie penguins, Gentoo penguins and kelp gulls. Cape petrels can be found breeding here and Weddell seals are also regular visitors.

Antarctica, Falklands & South Georgia

IN THE REALM OF THE GREAT EXPLORERS

We travel in close contact with the elements on this voyage. The sight of mighty glaciers calving into the sea, flocks of thousands of excited penguins, humpback whales and killer whales in the icy ocean will be a part of your experience.

You can also participate in exciting outdoor activities such as hiking and kayaking – or maybe spend a night ashore in a tent! This adventure starts in Buenos Aires, and before departure you should discover the 'Paris of South America' for yourself. As the voyage gets underway in earnest there will be a number of presentations about the history and wildlife of the areas we will be visiting.

The remote Falkland Islands' unique ecosystem offers about 70 different sub-Antarctic animal and bird species. The capital Port Stanley is one of the places where it's possible to go hiking or kayaking or spend the night outdoor in a tent with your fellow polar adventurers. In South Georgia we will explore old whaling stations, visit Sir Ernest Shackleton's grave and see a King penguin colony at Fortuna Bay before we sail south.

Antarctica is an unending, white wilderness full of fantastic impressions, and we will spend two full days here discovering and exploring! We sail in the wake of historical explorers and see Antarctica as they saw it; an endless white wilderness, with nature at its most sublime and haunting. Three days later our voyage ends in the Argentinean town Ushuaia, counted as the southernmost town in the world. Your journey home continues with our flight to Buenos Aires.

THE GREAT ANTARCTIC EXPEDITION

Join us on a voyage of exploration and discovery to this far corner of the earth! Come ashore for hikes, take to the sea in a kayak or spend a night on land in a tent. Enjoy visits to sites where huge elephant seals lounge on the sand, fur seal pups race in and out of the water, albatross soar overhead and King penguins amass in their thousands.

Start your voyage by exploring Buenos Aires, the home of the tango. The following day you fly to Ushuaia where your journey starts as we head across the open seas. After a day sailing we reach the westernmost settled outposts of the Falkland Islands. Here the sheep graze alongside immense colonies of albatross and Rockhopper penguins. South Georgia's rich history of exploration and whaling lends a great backdrop to its rugged scenery and bustling wildlife. It is known as the Serengeti of the Southern Ocean, and is a favoured place for wildlife photographers. We will visit some of South Georgia's abandoned whaling stations such as the historic Grytviken. On our way to Antarctica we will also visit the South Orkney Islands.

We will spend four days exploring Antarctica. Once we reach our goal, sturdy Polarcirkel boats will take you ashore for a closer look at penguin colonies, historical sites and incredible scenery. Sites we visit will hopefully include Deception Island, a distinctive ring-shaped volcanic caldera, Half Moon Island, considered a jewel of diversity in the polar landscape, and the Antarctic Sound, known as 'Iceberg Alley', offering a staggering assortment of bergs of all shapes and sizes. After returning to the world's southernmost town Ushuaia we transfer you to the airport for your flight to Buenos Aires.

EARLY BOOKING BENEFITS

Booking early carries many advantages. It gives you the opportunity to select the ship, date and cabin grade of your choice and since we operate a flexible pricing system then generally speaking the earlier you book the lower the price.

WHAT HAPPENS IF I MISS THE EARLY BOOKING DEADLINE?
After the early booking period comes to end our flexible pricing system starts to operate which means that they may increase.

HOW DOES OUR FLEXIBLE PRICING SYSTEM WORK?
From the launch of this brochure right up until departure we take bookings for all 2015 sailing dates across all cabin grades. Those customers who want to secure specific dates and cabins book early, since some dates and cabins are more popular than others they can sell out quickly. Our pricing systems recognises this and automatically adjusts prices accordingly, as a result prices can increase for dates and cabins with limited availability.

FROM AND TO PRICES IN OUR PRICE GRIDS
In this brochure on our price grids we quote 'from' and 'to' prices. Apart from some special offers on limited dates and with special terms and conditions the 'from' prices quoted in this brochure will not be reduced, after the early booking deadline passes prices may increase on a stepped incremental basis up to the level of the higher 'to' price. Whilst they may not reach the 'to' price if you want to secure your preferred date and cabin at the best possible price then our advice is to book as early as you can.

EARLY BOOKING BENEFITS

Booking early carries many advantages. It gives you the opportunity to select the ship, date and cabin grade of your choice and since we operate a flexible pricing system then generally speaking the earlier you book the lower the price.

WHAT HAPPENS IF I MISS THE EARLY BOOKING DEADLINE?
After the early booking period comes to end our flexible pricing system starts to operate which means that they may increase.

HOW DOES OUR FLEXIBLE PRICING SYSTEM WORK?
From the launch of this brochure right up until departure we take bookings for all 2015 sailing dates across all cabin grades. Those customers who want to secure specific dates and cabins book early, since some dates and cabins are more popular than others they can sell out quickly. Our pricing systems recognises this and automatically adjusts prices accordingly, as a result prices can increase for dates and cabins with limited availability.

FROM AND TO PRICES IN OUR PRICE GRIDS
In this brochure on our price grids we quote 'from' and 'to' prices. Apart from some special offers on limited dates and with special terms and conditions the 'from' prices quoted in this brochure will not be reduced, after the early booking deadline passes prices may increase on a stepped incremental basis up to the level of the higher 'to' price. Whilst they may not reach the 'to' price if you want to secure your preferred date and cabin at the best possible price then our advice is to book as early as you can.

Dinner & Tango Show CENBUE02

A mixture of passion, sensuality, nostalgia and melancholy, the Tango is the dance of Argentina. It originated in the late 18th century boliches (brothels). Its influences came from the many immigrants who arrived from Europe and Africa. The Tango became known internationally and was soon all the rage in cosmopolitan cities like Paris.

€149pp*
*The price includes transfers to and from hotel, live tango-show, three-course dinner with aperitif and wine and coffee. Tour operates on day of disembarkation (20:00-24:00).

This is a 14.000 km² area with thousands of islands. The Delta runs through a subtropical rain forest where ceibo flowers are not uncommon.

€66pp*
*The price includes guided sightseeing tour by bus and boat starting and ending at your hotel (09:00-13:00). Tour operates one day after disembarkation (except for disembarkation in Buenos Aires on 15.03.16 where tour operates on day of disembarkation from pier/to hotel). This excursion is not combinable with your post programme Iguazu.

Santa Susana Ranch Tour CENBUE05

Buenos Aires is a sprawling metropolis, which abruptly ends and endless fields of green pastures dotted with cattle and horses begin. On your arrival at the estancia (ranch) – following a drive of approximately one and a half hours – 'empanadas' (traditional Argentine meat pies) will be prepared for you to sample. After taking the opportunity to stroll around the grounds and settle into the slower pace of life, enjoy a traditional asdao (BBQ) including the world-renowned Argentine beef. Dining will be 'family style' and you could find yourself sharing with other patrons at the estancia. Live entertainment will be supplied by gauchos in their typical dress, dancing to their unique folkloric music. Following lunch, the fun moves on to an open field where you can admire an impressive display of the gauchos' skilful abilities on horseback (not possible with heavy rain).

€112pp*
* The price includes transfers from/to your hotel, a BBQ lunch with wine, drinks and coffee, folkloric and gaucho show. The tour is operating Tuesday to Sunday (approx. 09.30-16.30)

MS FRAM

MS Fram draws inspiration from the heritage of the original Fram, taking the most advanced technology and making it extraordinarily suited for expedition voyages in polar regions. Fram means forward – lifting expectations of the voyage at hand.

Of the 127 comfortable cabins, a number of them are superior and have names after Norwegian polar heroes. The spacious outside decks include accessibility to the very front of the ship – a great place to observe marine wildlife. We are very proud of the art commissioned for MS Fram – local artists from the Arctic have contributed to making her a modern masterpiece. After dressing up for shore side excursions and expedition landings you meet at our 'tender pit' where you safely and efficiently embark our sturdy Polarcirkel boats which await to take you from ship to shore.

PRACTICAL INFORMATION

Brochure Accuracy
The information and descriptions contained in this brochure have been checked by our staff and/or local agents to ensure they are correct. However, changes may occur after the date of publication and there may be occasions when Hurtigruten or local suppliers may withdraw some facilities. Should we become aware of any significant change which may be considered to have an effect on the enjoyment of your holiday we will do our utmost to advise you. Public holidays and religious festivals may also affect the availability of resort and hotel facilities. Tourist offices can provide details of such events. Most areas we visit are very remote and affected by prolonged cold weather or difficult terrain. Provision of facilities will be subject to local conditions, and customs and lifestyles may differ from those to which you are accustomed.

Address and contact information for the ship
All cabins have a telephone. Buy a phone card in the reception to call from the ship. There is an Internet café on board (at extra cost) and Wi-Fi is available on deck 4 (in the reception area only) and in the bar on deck 7. Please note that the connection is a 512MB line and that both internet and telephones from time to time will be out of range due to the vessel's location. Due to the limited capacity we kindly ask you not to use live casting /live streaming websites.
Phone: + 47 85 00 11 00.
E-mail: fram@hurtigruten.com

Alcohol Policy
Guests are respectfully reminded that only beverages purchased from the ships restaurants and bars can be consumed on board. Alcoholic beverages purchased in ports-of-call and from our on-board shops will be stored by the ship and delivered to your cabin on the last day of the sailing. According to Norwegian law, persons over the age of 18 are allowed to purchase beer and wine. Spirits are only available to persons over the age of 20 years.

Changes to the itinerary and the excursions
All routes and excursions are provisional and subject to change – weather, sea and ice conditions may affect the itinerary. Excursions may also be subject to minimum/maximum numbers. Hurtigruten ASA reserves the right to change the itinerary and the content of excursions without prior notice.

Charter flight to Ushuaia
The flight from Buenos Aires to Ushuaia and vice versa is part of your voyage and usually operates early in the morning and arrives to Buenos Aires in the afternoon upon return. Please note that the airline will confirm the final flight times between Buenos Aires and Ushuaia only a few days prior to the day of departure. For final flight times and your boarding pass please contact our hospitality desk at Emperador Hotel in Buenos Aires one day prior. If you do not plan an overnight stay at the end of your voyage, please do not book your international flight from Buenos Aires in any case before 20:00! Please note that the flight to/from Ushuaia departs/arrives at the Jorge Newberry National Airport . You need at least 3 hours to change airports in Buenos Aires for your connecting flight from Ezeiza airport. We are unable to accept responsibility if you miss your return flight in the event of any delay

Children
Hurtigruten ASA cannot accept children under the age of 5 to travel with us to Antarctica. There is no age restriction on our other destinations. For safety reasons, children under 12 years of age will be considered on each landing. It is entirely at the Captain's discretion to allow children on shore landings.

Disabled cabins / Mobility
The ship is suitable for wheel-chairs. Persons in need of special assistance must travel with a companion. Please note that the ship's gangway must be used in order to embark/disembark wheelchairs. In ports where tidal conditions or other circumstances require use of a portable gangway, or during landings with Polarcirkel Boats, there is no possibility to use/take wheelchairs. Embarkation and disembarkation in Kangerlussuaq/Greenland is by Polarcirkel boat and therefore we regret that any voyages starting and ending in Kangerlussuaq are not suitable for wheelchair users.

Environment and green navigation
Our Captains take pride in route planning that minimises the load of the engines and reduces emissions. All waste is stored on board until it is deposited for treatment ashore. We never dump waste in the sea and we ask you not to leave any waste when you are on shore excursions. In populated areas there are containers for depositing waste, please use them. We ask you to respect the saying: "Leave nothing but footprints, take nothing but pictures."

Expedition Team
The on board Expedition Team is composed of an Expedition Leader, an Assistant Expedition Leader and several lecturers and experts. Your Expedition Leader will regularly update you on the progress of the trip as well as the different points of interest and wildlife sightings that may occur. Biographies of the Expedition Team can be found on the Information bulletin board located close to their Information desk. At the Expedition desk you will be able to find information regarding the trip and book optional excursions.

Life saving equipment, life vests and safety on board
The ship complies with all safety requirements and is a modern vessel suitable for sailing in icy waters. Upon arrival on board all passengers will be instructed in safety procedures, and the use and location of the safety equipment. There is a safety plan situated on the inside of the cabin door. We stress the importance of becoming acquainted with the ships safety plan. Special safety regulations will apply on landings with the Polarcirkel boats. Please follow the instructions given by the Expedition Leader and crew/staff. Special lifejackets for use during landings will be handed out to all passengers before first landing. A mandatory briefing regarding the safety guidelines will also be given.

Medical Declaration Form
In accordance with Hurtigruten ASA requirements, all travellers to Antarctica and North East Greenland must complete a confidential medical declaration form, signed by a doctor, stating that they are fit to travel. This form will be sent to you well in advance. The form must be filled out, brought on board the ship and personally delivered to the doctor upon embarkation. Boarding may be denied if these forms are not presented at time of embarkation.

Medical emergencies and medication
There is an English-speaking physician and nurse on board at all times. The ship has a small medical facility with the necessary equipment and drugs to handle small emergencies. In the event of a serious emergency, the nearest hospital will be contacted. Medical consultations as well as medicines will be charged to the passenger affected. We strongly recommend to carry sufficient travel/health insurance. If you depend on medication, remember to bring sufficient supplies to last through any unforeseen delays. We also recommend that you keep your medication in your hand luggage properly labelled and with clear instructions for its use. If you depend on vital drugs, please inform the ship's doctor upon arrival. Illness on board can lead to quarantine and orders from the ship's physician and captain, must be followed.

Mobile phone
Depending on the operator with whom you have a contract, mobile phones will function in some places on shore. Check with your carrier company for details. Guests may use their own GSM telephones on board the ship at all times as long as we have connection at an international price level. The price will vary depending on which mobile operator you use. Please check with your carrier company for rates and if your subscription is valid on the MCP Satellite System on board.

Passport and VISAS
Please take a few minutes to familiarize yourself with the required travel documents you will be asked to provide prior to boarding the ship. It is the sole responsibility of the guest to identify and obtain all required travel documents and have them available when necessary. Passport is the only valid identification for all of our voyages aboard MS Fram. ID-cards are not accepted. The passport needs to be valid for more than six months after you return to your home country. At check-in passports will be collected by the crew on board the vessel, in order to clear immigrations and customs. Passports will be kept throughout the whole voyage and returned at the end of the trip. Please bring a photocopy of the passport with you. It is the guests' responsibility to identify and to obtain the necessary visas before commencing their cruise. Based on nationality, many countries still require an entry visa.
We regret we are unable to accept any liability if you are denied access to a flight or entry into a country or are otherwise affected by difficulties or costs resulting from your passport not being approved or if you have not obtained the required visa or other documentation.

Polarcirkel boat landings
These sturdy boats enable both water-based exploration and safe landings in otherwise inaccessible areas. You will need to be fairly agile to board these but there is otherwise no need to worry about travelling in them. The crew will show you what to do and as long as you follow their instructions, after a few days it will become second nature. On all landings in Polarcirkel boats guests are expected to wear proper footwear. In Antarctica it is mandatory to use rubber boots for all landings. For all other destinations boots can be useful. You are welcome to bring private boots, or you can rent a pair on board. See separate point 'Rubber boots'. Landing operations depend on favourable conditions.

Ship's security
MS Fram complies with the ISPS-regulations (International Ship and Port Security System) where all luggages are subject to X-ray/metal detector inspection upon arrival port facility or ship. You are kindly asked to keep this in mind packing your luggage for the voyage. The ISPS regulations also include hand baggage scan in all ports of call throughout the course of the voyage.

Special requests
If you have special requests such as vegetarian, diabetic or gluten free please inform us at time of booking and contact the Head Waiter when on board. We will do our best to meet such requests but can not guarantee to do so and under no circumstance will any such request be accepted by us so as to form part of a contractual agreement.

Vaccinations
Check with your General Practitioner regarding the recommended vaccinations for your journey.

What to wear
On board dress is informal. Although some passengers choose to change for dinner the dress code is casual rather than formal. The weather can vary during the course of each voyage or even during the day. To cater for these variations we recommend the layered dress approach that enables you to adapt to changes in temperature, wind and precipitation conditions easily. For all voyages we advise you to take breathable rain and windproof clothing. A warm hat, gloves, scarf and thermal clothing can be useful, together with thermal underwear, during the winter months. On land where it may be icy, sturdy shoes are important for shore excursions and a walking stick/trekking pole may be useful.

ON BOARD INFORMATION

MS Fram was specially built for comfortably sailing the remote waters of the Arctic and Antarctic, and you may enjoy her many services whilst she takes you close to nature and wildlife. No dressing up for dinner – no fuss, no frenzy – our aim is to sail calmly through the crisp clean air, close to the ever-changing environment.

Announcements
To hear all announcements in the cabin, the TV has to be set to a channel number. Check your cabin folder for specific channel number once on board. Important updates to our programme and emergency information will be announced to the cabins via separate speakers overriding all other audio in the cabin.

Artworks
Local artists from the Arctic have contributed to making the MS Fram a modern masterpiece. There is a permanent exhibition of original artefacts from the original Fram used by Nansen and Amundsen.

Bar service
The ship has a bar with an excellent selection of spirits, wines, beers and soft drinks at moderate prices, and a lounge with coffee service.

Cabins
There is a wide range of comfortable cabins on board, all with private bathrooms. Please note that check in hours in reception may open before the cabin is ready for use. You will be informed at check-in when your cabin is ready for you. You may expect some noise and vibration in some cabins. This varies depending on the location of your cabin. Also, noise affects people differently and what may be a problem for one person may not be a problem for others. Please note that cabins on deck 5 with passenger access to outside areas may sometimes have an obstructed view due to other passengers walking past. Please ask our reservation team for advice on the best cabin location for you.

Cruise card
A cruise card will be issued upon arrival on board as part of the check in procedure in accordance with ISPS regulations. All our guests are requested to wear this card when disembarking the ship in all ports of call and landings. The card serves as a control system on the gangway enabling the ship to know which of our guests are on board and ashore at any time. This card, in addition to being the key card for your cabin, is also your payment card on board. The card is the only means of payment for the on board facilities. To activate the cruise card account you must have a Visa, American Express, Diners or Mastercard. The credit card must be valid more than 3 months after your stay on board. We regret that our system does not support Maestro Card. Please note that when using your credit card on board the ship, your account will be debited in NOK. The rate of exchange will be the one validated by your credit card company. The evening before the voyage ends the account will be totalled and settled on board, and a receipt brought to your cabin. We regret that there is no facility for cash withdrawals or currency exchange on board.

Electricity
The plugs in your cabins are all 220V/50hz. Suites have 110V for shavers. The plugs are continental two pin plugs. Adapters are available for purchase in the shop.

Entertainment
The emphasis on board is on relaxation and discovery, and not on the commercial entertainment which is so often a part of conventional cruises. Our aim is to get you closer to unique environments and to allow you to share the experience with your fellow travellers. Occasionally there may be some musical entertainment on board in the evenings.

Fitness room, sauna and jacuzzi
On deck 7 you can find our modern fitness room and comfortable sauna with a fantastic view on the landscape passing by. Two outdoor Jacuzzis invite you for a warm bath.

Gratuity Policy
We in Hurtigruten ASA have learned that many of our guests wish to give a special thanks to our service crew on board. It is at you discretion to honour service rendered by the crew in bars, restaurant and cabins. In order to give you some guidelines, we recommend 80 NOK (approx 9 Euro, 12 USD) per guest per day as an average gratuity. Whatever amount you decide to give, please fill in the form you will find in your cabin and give it to the receptionist two nights before the end of the cruise. The amount will then be debited to your cruise account.

Information and services
On deck 4, you will find our reception and expedition desk, where our staff are available to answer your questions. In this area, you will also find our internet café, our lobby with wireless access and our lecture rooms.

Language
The language on board is English. Announcements, lectures and written information are also given in German.

Laundry
A laundry service is available on board at low cost. No self-service or dry-cleaning is possible.

Lectures
The ship's experienced lecturers' command an in-depth knowledge of the areas in which we sail. The lecturing schedule will be announced everyday in the on board daily program. Do not hesitate to contact our Expedition Team for any questions or concerns you might have.

Library
The ship has a small selection of books on different topics that is available to guests while on board.

Observation Lounge
Qilak means 'sky' in Greenlandic, and the name of this lounge sets the standard. Here you find large panoramic windows, ample comfortable seats and even a pair of binoculars so you can view the wildlife and details of the ever changing landscape.

Outdoor decks
MS Fram has spacious outdoor areas. Enjoy the views from the very front of the ship where there is a large viewing area or from the back on deck 7. Both are perfect vantage points to sit back, relax and watch the world go by.

Post
You can hand in your mail in the reception, and for a limited amount covering service fee and stamps we will forward the post in every port where it is possible. The time used from sending the postcard to when it gets to the receiver may be relatively long. Hurtigruten has no responsibility for lost mail.

Resident Photographer
Our resident photographer will invite you to photography workshops and practical sessions out on deck to enable you to take the best possible pictures from your voyage.

Restaurant & cuisine
Your voyage includes breakfast, lunch and dinner. Our restaurant is named Imaq – the Greenlandic word for 'ocean', offering scenic views from every table. At the far end of the restaurant is a balcony, an ideal place from which to take photos. The open seating for the breakfast and lunch buffet creates a relaxed atmosphere. Dinner varies between buffets, set meals and barbeques. The type of dinner is announced in the daily programme. Our Head Waiter will assign tables prior to arrival. Information about table number and meal times will be in your cabin upon arrival. Please provide information regarding special requests for seating arrangements to your sales office/travel agent. At some voyages we might serve the dinner divided into Boat groups. Where possible, we plan our menus around seasonal ingredients, taking advantage of local produce to satisfy healthy appetites stimulated by the fresh sea air. Regular coffee/tea is complimentary throughout the whole voyage. Other beverages and refreshments during the day are not included but can be purchased on board in the restaurant, cafeteria and bar.

Room service
The cabins are cleaned daily. We regret that meals or drinks cannot be served in the cabins.

Rubber boot rentals
Onboard you may rent a pair of high quality boots for a low cost to wear during landings and hikes. These boots will be kept on the ship's tender deck, and you will have your private pair during the whole voyage. We also offer high quality binoculars, walking sticks and a small selection of warm thermo suits for rent at a low cost.

Seasickness
Seasickness pills are available for purchase in the reception. If you are prone to seasickness it is recommended that you bring pills that you are familiar with. You may also buy 'sea bands' on board.

Shop
In our on board shop you can buy modern clothes suitable for Explorer voyages. Our Expedition Team will be happy to give you expert advice on how to dress properly in polar areas. We offer a great range of both warm and practical clothing, and we focus fabrics with natural fibres. We also offer souvenirs, handicrafts, and postcards at good prices. In addition we also stock a small selection of soap, toothpaste and other personal effects.

Shore excursions
A selection of shore excursions is available to pre-book. Where available we will supply you with excursion information in advance, otherwise you will receive full details and prices on board. Excursions and their contents are subject to maximum/minimum numbers and local and weather conditions.

Smoking
On board MS Fram, smoking is only permitted in designated areas on outside decks. Do not smoke in your cabin. To show respect for the environment, please use the provided ashtrays when smoking. Throwing cigarette butts overboard is strictly prohibited. A cleaning charge of 1,500 NOK will be applied for smoking in your non-smoking cabin, to cover for the cost of cleaning linen and curtains to return it to a non-smoking standard.

Suite service
As a suite guest on MS Fram, we offer you an exclusive suite check-in area at deck 5 with a chilled glass of champagne to begin your voyage. Special amenities come with our magnificent suites including a welcome on board gift, complimentary beverages for lunch and dinner inclusive of chilled filtered water by the carafe, sodas, soft drinks, beer and a selection of wine by the glass. We also offer an exclusive breakfast area with speciality buffet products. If local products are available, we will do our best to provide them to you. In the suite you will find a kettle for your convenience with coffee, teas, sweeteners and cream, and the mini bar has a complimentary selection upon your arrival. Replenishment of the mini bar is chargeable.

Water
The tap water in your cabin is potable, but we recommend buying bottled water or our self-produced filtered water by the carafe in the restaurant for the quality and freshness.

Walking on board
We kindly remind you to be careful walking on board the ship while at sea, especially venturing out on deck, mind the signs for warning of wet and slippery decks. Be aware the doors toward the outer decks on 5, 7 and 8 are potentially dangerous in windy conditions. Please adhere to the signs and announcements when it is not advised to go outside. While walking inside, hold on to railings but not to door frames to avoid injury.

Welcome meeting
Upon arrival on board, there will be a mandatory passenger safety drill before departure. There will also be a welcome meeting where security information as well as practical information about the cruise will be given, and an opportunity to meet some of the crew and be introduced to the key personnel on board.

Your booking may be cancelled if we do not receive payment by the due date (we will not normally send reminders) and cancellation charges as set out under 'If You Cancel' (see below) will be payable by you.

4. FITNESS TO TRAVEL ON THE SHIP, PREGNANCY, DISABILITY OR REDUCED MOBILITY, MEDICAL/MOBILITY EQUIPMENT
In order to ensure that the Carrier is able to carry passengers safely and in accordance with applicable safety requirements established by international, EU or national law or in order to meet safety requirements established by competent authorities including the ships flag state every Passenger warrants that he/she is fit to travel by sea and that his/her conduct or condition will not impair the safety of the ship or inconvenience the other passengers. We reserve the right to require any Passenger to produce medical evidence of fitness to travel in order to assess whether that Passenger can be carried safely in accordance with applicable international, EU or national law. If we consider it necessary, we are entitled to administer a health questionnaire prior to boarding.

If it appears to us, the Master or the Company's nominated medical representative that a Passenger is for any reason unfit to travel, likely to endanger safety, or likely to be refused permission to land at any port, or likely to render the Carrier liable for Passenger maintenance, support or repatriation, then the Carrier or the Master shall have the right to take any of the following courses: (i) Refuse to embark the Passenger at any port; (ii) Disembark the Passenger at any port; (iii) Transfer the Passenger to another berth or cabin; (iv) If the Company's nominated medical representative considers it advisable, to place or confine him/her or to transfer the Passenger to a health facility at any port, at the Passenger's expense (v) to administer first aid and administer any drug, medicine or other substance or to admit and/or confine the Passenger to a hospital or other similar institution at any port provided that the ship's nominated medical representative and/or Master considers that any such steps are necessary.

Where a Passenger is refused embarkation as a result of safety and/or fitness to travel, neither we nor the carrier shall be liable for any loss or expense occasioned to the passenger thereby, nor shall the passenger be entitled to any compensation from the Carrier.

Passengers who need assistance and/or have special requests or need special facilities or equipment with regard to accommodation, seating or services required or need to bring medical equipment must notify us at the time of booking. If there are any particular conditions, disabled or reduced mobility which require personal care or supervision then such personal care or supervision must be organised by the passenger and at the passenger's expense. Those passengers confined to wheelchairs must furnish their own standard size foldable wheelchairs but needn't be accompanied by a travelling companion. Unless we and or the Carrier agree otherwise and in writing Passengers are limited to bringing 2 items of such mobility or medical equipment on board per cabin with a total value not exceeding €2,600. All equipment must be capable of being carried safety and must be declared before the sailing. The Carrier may decline to carry such equipment where it is not safe to do so or where it has not been notified in time to enable a risk assessment to be carried out.

Pregnant women are highly recommended to seek medical advice prior to travel at any stage of their pregnancy. Women who are up to 23 weeks pregnant at the end of the cruise are required to produce a medical certificate of fitness to travel. The Carrier cannot for safety reasons carry pregnant passengers of 24 weeks or more by the end of the cruise.

5.A PRICES
All Voyage prices shown in this brochure are in Euros and are per person based on full occupancy of the cabin accommodation unless otherwise stated.

Single/Sole occupancy of cabins with more than one berth is at our discretion as single/sole use of multiple berth cabins will be limited. The price of your voyage or air package holiday arrangements was calculated using exchange rates quoted in the Financial Times Guide to World Currencies on 01.12.2013, Norwegian Kroner (NOK) 8.7236; Euros 1.1783. We reserve the right to change any of the prices quoted in this brochure although there will be no change within 30 days of your departure date. You will be advised of the current price of the voyage or air package holiday you wish to book before your contract is confirmed.

We reserve the right to increase or decrease prices in line with any change in VAT, local and UK taxes, embarkation/disembarkation fees, fuel surcharges, exchange rates, security charges or any fees chargeable for the services included in the cost of your holiday.

Should it be necessary to make any surcharges we will notify you of the relevant adjustments by issuing a new invoice. In any event we will absorb all such increases where they form less than 2% of the total cost of your voyage or air package holiday (excluding any cancellation or amendment charges). Only amounts in excess of 2% will be invoiced to you, together with an administration charge of €1.00 per person together with an amount to cover agent's commission. In the event that any surcharge means you paying in excess of 10% more on the original cost of your voyage or air package holiday, you will be entitled to cancel your trip with a full refund of all monies paid (except amendment fees). Should you wish to cancel under these circumstances you must exercise your right to do so within 14 days from the date of the invoice we send you showing the increase.

Should the price of your voyage or air package holiday go down due to changes above by more than 2% of your holiday cost then any refund due will be paid to you. Please note that travel arrangements are not always purchased in local currency and some apparent changes have no impact on the price of your travel due to contractual or other protection in place.

5.B VOYAGE AND AIR PACKAGE HOLIDAY
Prices Do Not Include

- Travel Insurance
- Luggage Handling
- International Flights except where included in the Air Package Holiday Price
- Optional Excursions
- Gratuities

Optional Excursions booked before you travel or local excursions or other activities that you may choose to book and pay for whilst on holiday are not part of your voyage or air package holiday arrangements provided by us nor are we agents for the provider of the service. For any excursion or other activity you book before departure or with which you are assisted in arranging whilst on holiday, your contract will solely be with the supplier of the excursion or activity and not with Hurtigruten. We are not responsible for the provision of your excursion or activity or for anything that happens during the course of its provision by the supplier.

6. IF YOU CHANGE YOUR BOOKING
If you wish to change your travel arrangements after they have been confirmed we will do our utmost to help but it may not always be possible. Any request for changes to be made must be in writing by the person who made the booking or your travel agent. You will be asked to pay an administration charge of €73 per person and any further cost we incur in making this alteration. NB: most airlines will charge a fee for ticket changes. Costs may increase the closer to the departure date that changes are made. For example, the transfer within 60 days of departure of arrangements involving a scheduled flight will mean the cancellation and re-booking of this flight and a significant additional charge.

If you change the number of people in your party, the price of the arrangements will be recalculated for the new party size e.g. this may mean that accommodation is under-occupied and each member of the party may have to pay an increased price.

Any increase in price caused by changes you have requested is not a cancellation charge even though it may arise because a member of your party has cancelled. Any change by you to your confirmed arrangements after departure is in all cases subject to availability and any relevant costs.

7. IF YOU CANCEL
You, or any member of your party, may cancel your travel arrangements at any time. Written notification from the person who made the booking or your travel agent must be received at our offices. We recommend 'Recorded Delivery'. Cancellation takes effect the day we receive your letter or email. Since we incur costs in relation to your arrangements from the time we confirm your booking you will have to pay the applicable cancellation charges as shown in the table below (which also applies if we cancel because you have failed to make payments on time - see 'Payment' section) together with the cost of any air fare for which we have had to pay at the time of the booking and will be payable immediately on cancellation.

When the cancellation letter is received by us before departure	Charges as a % of the total holiday cost (excl. insurance premiums)
60 or more days	Retention of deposit
42–59 days	30%
28–41 days	60%
14–27 days	90%
Less than 14 days	100%

If you have to cancel for a reason covered by your travel insurance you may be able to reclaim the cancellation charges, less applicable excess. Insurance premiums are not refundable.

8. IF WE CHANGE OR CANCEL YOUR BOOKING

We reserve the right to change any of the details, and correct any errors in this brochure or invoices at any time. If changes are made before you have made your booking we will advise you before we confirm your arrangements. We reserve the right in any circumstances to cancel your travel arrangements (for example if a minimum number of participants for a particular travel arrangements not reached, we may have to cancel it) and to change airline, aircraft types, vessels and itineraries without liability for any subsequent loss. Even after we have confirmed your booking we may have to make alterations but we will not cancel your travel arrangements less than 60 days before your departure except for reasons of force majeure or failure by you to pay the final balance in full.

Most alterations will be minor and while we will do our best to notify you or your travel agent of any changes as soon as reasonably possible if there is time before your departure, we will have no other liability to you.

Occasionally we may have to make a significant change to your confirmed arrangements. Significant changes include the following:

- Change of UK departure airport. A change from one London airport to another is not considered a major change. London airports are Heathrow, Gatwick, Stansted, Luton and London City.
- Change of your time of departure or return by more than 12 hours.
- Change of your flight from a day flight to a night flight if this also includes a change to your departure time of 3 hours or more.†
- Change of resort.
- Change of holiday accommodation to accommodation of a lower official rating.

† For the purposes of the contract night flights are those which depart from the UK between 2200 and 0600 hours or arrive in the UK between 2400 and 0600 hours.

If we have to make a significant change we will notify you as soon as possible and you may either:

(a) accept the change and the contract between us will then be varied to incorporate the change; or

(b) take alternative arrangements altogether (subject to availability). If the alternative arrangements selected are a lower price than those originally confirmed the difference will (if already paid) be refunded to you.

(c) withdraw from the booking completely in which case we will as soon as possible, refund all money paid to us.

Passengers must give notice of their decision as soon as reasonably possible and not later than 7 days of being informed of the alteration. If you choose (a) or (b) above, you will receive as compensation a credit towards the cost of your arrangements, or any alternative selected, the amount shown in Scale A below. If you choose (c) we will pay you compensation shown in Scale B below. In all cases we will have no liability for any other or greater compensation or for expenses or losses incurred.

Period before departure date notification given by us	Credit/Compensation per fare paying passenger (excluding infants)*	
	Scale A	Scale B
0–7 days	€60	€30
8–14 days	€50	€24
15–28 days	€36	€18
29–42 days	€24	€12
43–59 days	€12	€6
More than 60 days	€6	Nil

*The compensation shown above applies to full fare paying adults only. Children or others travelling at concessionary rates will receive compensation pro rata based on the concessionary price against the full adult price as shown on the confirmation.

The above rates do not apply when we are forced to make changes which cause you to withdraw or cancel your arrangements, by reason of unusual and unforeseeable circumstances beyond our control and which we could not have avoided by the exercise of all due care and our only liability will be to refund, as soon as possible, all money paid to us by you. We are unable to accept liability or pay compensation where the performance or prompt performance of our contractual obligation is prevented or affected by reason of circumstances amounting to 'force majeure' i.e. any event which we or the supplier(s) of the service(s) could not, even with due care foresee or avoid. Such events may include, but are not limited to, war, threat of war or civil commotions, riots, terrorist activity, industrial dispute, natural or nuclear disaster, adverse weather, fire, flood, drought, government action, airport and port regulations and closures, technical transportation problems, maintenance to vessels, scheduling of transport and similar events outside our control.

A flight or ship delay does not constitute a change to holiday arrangements.

9. COMPLAINT PROCEDURE

If there is a problem during your holiday, you must report it on board immediately or to the relevant airline, ground handler, hotelier or other supplier, so that prompt efforts can be made to resolve the problem. In the unlikely event that a problem cannot be resolved at the time and you wish to complain, you must send us full written details within 28 days of your return. Failure to take either or both of these steps will prejudice our ability to resolve your problem and / or investigate it fully. In consequence, any right to compensation you may have will be extinguished or, at the very least, substantially reduced.

Where the port of embarkation for your sailing is in the EU then any complaints relating to EU Regulation 1177/2010 on Passenger Rights when travelling by Sea and Inland waterways must be made to the Company in writing no later than 2 months after return from travel or the date on which the service complained of was performed. The Company will provide a final reply within 2 months. You must supply full details to enable the Company to deal with your complaint.

10. OUR LIABILITY TO YOU

(i) Except where otherwise expressly stated in these booking conditions, we regret we cannot accept liability or pay any compensation where the performance of our contractual obligations is prevented or affected by or you otherwise suffer any damage or loss as a result of 'force majeure'. In these Booking Conditions, 'force majeure' means any event which we or the supplier of the service(s) in question could not, even with all due care, foresee or avoid. Such events may include war or threat of war, riot, civil strife, actual or threatened terrorist activity, industrial dispute, natural or nuclear disaster, adverse weather conditions, fire and all similar events outside our control.

(ii) We will accept responsibility for the arrangements we agree to provide or arrange for you as an 'organiser' under the Package Travel, Package Holidays and Package Tours Regulations 1992 as set out below. Subject to these booking conditions, if we or our suppliers perform or arrange your contracted holiday arrangements negligently, taking into consideration all relevant factors, we will pay you reasonable compensation.

(iii) Where death and or personal injury and or loss of or damage to property occurs during carriage by air or by sea then liability and the extent of damages recoverable will be dealt with by International Conventions as set out in paragraphs (v) and (vi) and not otherwise.

(iv) As set out in these booking conditions we limit the maximum amount we may have to pay you for any claims you may make against us which do not involve personal injury, illness or death. Except where loss of and/or damage to luggage or personal possessions is concerned if we are found liable to you on any basis the maximum amount we will have to pay you is twice the price (excluding insurance premiums and amendment charges) paid by or on behalf of the person(s) affected in total unless a lower limitation applies to your claim under clause 10(vi) below.

(v) Where any claim or part of a claim (including those involving death or personal injury) concerns or is based on any travel arrangements (including the process of getting on and/or off the transport concerned) provided by any air, sea, rail or road carrier or any stay in a hotel, the maximum amount of compensation we will have to pay you will be limited. The most we will have to pay you for that claim or that part of a claim if we are found liable to you on any basis is the most the carrier or hotel keeper concerned would have to pay under the international convention or regulation which applies to the travel arrangements or hotel stay in question. (for example, the Warsaw Convention as amended or unamended and the Montreal Convention for international travel by air and/or for airlines with an operating licence granted by an EU country, the EC Regulation on Air Carrier Liability No 889/2002 for national and international travel by air, the Athens convention for international travel by sea).

Please note: Where a carrier or hotel would not be obliged to make any payment to you under the applicable International Convention or Regulation in respect of a claim or part of a claim, we similarly are not obliged to make a payment to you for that claim or part of the claim. When making any payment, we are entitled to deduct any money which you have received or are entitled to receive from the transport provider or hotelier for the complaint or claim in question. Copies of the applicable International Conventions and Regulations are available from us on request. We do not have any liability to you by virtue of the Regulation 261/2004 which applies solely to the operating carrier. Any liability we may have to you under our contract with you, arising out of the same facts, is limited to the remedies provided under the Regulation as if (for this purpose only) we were a carrier; any sums you receive from the carrier will be deducted from any amount due from ourselves.

(vi) Travel by sea is governed by the provisions of the Convention Relating to the Carriage of Passengers and their Luggage by Sea 1974 as amended in 1976 ("The Athens Convention) and where applicable from 1 January 2013 EU Regulation 392/2009 relating to the Liability of carriers of passengers by sea in the event of accidents ("EU Regulation 392/2009). For the purposes of the Athens Convention and EU Regulation 392/2009 we are the Contracting Carrier.

The Athens Convention and EU Regulation 392/2009 limit the Carriers' liability for death or personal injury or loss or damage to luggage and makes special provision for valuables. It is presumed that luggage has been delivered to you undamaged unless written notice is given by us and/or the performing Carrier.

a) in the case of apparent damage, before or at the time of disembarkation or redelivery; or
b) in the case of damage which is not apparent or of loss, within 15 days from the date of disembarkation or redelivery or from the time when such redelivery should have taken place.

Damages for cabin luggage payable by the Carrier are limited up to the Athens Convention limit of 833 SDRs or 2250 SDRs if EU Regulation 392/2009 applies.

Limits shall be reduced in proportion to any contributory negligence by the Client and by the maximum deductible specified in Article 8(4) of the Athens Convention or EU Regulation 392/2009.

In so far as we may be liable to a Client in respect of claims arising out of carriage by sea, we shall be entitled to all the rights, defences, immunities and limitations available, respectively, to the actual carrier and under the relevant Conventions and nothing in these Booking Conditions shall be deemed as a surrender thereof. To the extent that any provision in these Booking Conditions is made null and void by the Athens Convention or EU Regulation 392/2009 or any legislation compulsorily applicable or is otherwise unenforceable, it shall be void to that extent but not further.

Any liability in respect of death and personal injury and loss of and damage to luggage which we may incur to you shall always be subject to the limits of liability contained in the Athens Convention or EU Regulation 392/2009 for death/personal injury of 46,666 Special Drawing Rights (SDR) or 300,000 SDR under Athens Convention or 400,000 SDRs under EU Regulation 392/2009 except in the case of liability for war or terrorism 250,000 SDRs.

We are not liable for valuables, monies or other securities including jewellery and watches. If they have been deposited with the reception desk on the ship for safe keeping and a receipt issued then in those limited circumstances the Carriers liability will be as set out in the Athens Convention or EU Regulation 392/2009. The use of safes on board a Vessel is not a deposit with the ship or with the company under the Athens Convention or EU Regulation 392/2009 or otherwise. The limits are 1200 SDRs pursuant to Athens or 3,375 SDRs pursuant to EU Regulation 392/2009.

(vii) Where there is any loss of or damage to property including luggage which is not covered by any international convention and where liability is not limited by reference to any enactment, terms of conditions, then any legal liability that we may have for any such losses or damage will not exceed €600 per guest.

(viii) You must provide ourselves and our insurers with all assistance we may reasonably require. You must also tell us and the supplier concerned about your claim or complaint as set out in clause 9 above. If asked to do so, you must transfer to us or our insurers any rights you have against the supplier or whoever else is responsible for your claim or complaint (if the person concerned is under 18, their parent or guardian must do so). You must also agree to cooperate fully with us and our insurers if we or our insurers want to enforce any rights which are transferred.

11. INDEMNITY

When you book arrangements with us you accept responsibility for the proper conduct of yourself and your party. If your actions or omissions cause damage to any property in the provision of the contracted arrangements, or cause delay or diversion to any flight or other means of transportation, you agree to fully indemnify us against any claim (including professional fees and legal costs) made against us by or on behalf of the owner of such property or the operator of the flight or other means of transportation. The Captain of an aircraft or Master of a ship has authority over the aircraft/ship and passengers at all times when they are boarding or on board. There will be no liability on our part, or that of any supplier, for any refund, compensation, or costs thus incurred. Additionally, we will have the right to recover full costs resulting from the incident from the passenger.

At any port or place we may refuse to embark or may disembark any passenger who, in the opinion of the ship's authorized personnel, might be excluded from landing at further destinations by local authorities or who may be suffering from any contagious or infectious disease, or whose presence may be detrimental to the wellbeing of passengers or crew. In cases of quarantine of the ship, or individual passengers (passengers may be required to remain in their cabin or as instructed by authorised personnel on board if they or any other occupant of the accommodation presents any symptoms or may be considered to put other passengers at risk) we will not be liable for expenses thus caused and in such cases as above there will be no entitlement to any refund or compensation and we will have no liability for costs incurred as a result.

Your specific passport and visa and health requirements and other immigration requirements are your responsibility and you should confirm these with the relevant Embassies and/or Consulates. We do not accept responsibility if you cannot travel because you have not complied with the latest requirements. If you have made independent travel arrangements you accept responsibility for joining the ship in good time, regardless of any change to the sailing time or date, or to the itinerary. We are not able to refund monies paid to us, or any third party acting on our or your behalf, or make compensation or other payments where, for whatever reason, you fail to join the ship. Passengers going ashore are responsible for re-boarding the ship prior to departure from port.

We reserve the right to substitute another vessel for the scheduled vessel whether or not owned or operated by Hurtigruten. Any part of the travel arrangements and the voyage is subject to cancellation, delay, modification, or island/mainland visit cancellation for any reason, including medical disembarkation of crew or passengers or any other circumstances beyond our or our suppliers' control. You therefore acknowledge and agree that the scheduled itinerary for the voyage and the announced departure and arrival times are not guaranteed and we shall not be liable to passengers for any damages or other claims in the event of any delay, changes in itinerary or inability to perform services by reason of any event or events beyond our or our suppliers' control.

12. INSURANCE

It is a condition of the contract with us that every member of the booking has travel insurance in force for the entire duration of the booking, covering at least the cancellation of the booking and providing medical cover for illness or injury and repatriation while overseas. Please provide us with the name of your insurer, together with their 24-hour emergency number when you book or as soon as possible.

13. TIMINGS & DELAYS

Timings are estimates only and cannot be guaranteed, even if shown on tickets. They may be changed due to regulatory authority requirements, weather conditions, maintenance or technical reasons, and the ability of passengers to check in and board on time. Sometimes delays cannot be avoided but in such situations, in conjunction with our local agents or representatives, we will try to ensure your comfort during the course of any delay.

Where the port of embarkation is in the EU and the company reasonably expects the departure of a cruise to be delayed for more than 90 minutes beyond its scheduled departure time, passengers departing from port terminal shall be offered free of charge snacks, meals or refreshments as are appropriate given the waiting time, provided they are available and can reasonably be supplied. If the delay in departure necessitates a stay of one or more nights or a stay additional to that intended by the passenger where and when physically possible the Company shall, subject to the Package Travel Regulations 1992, offer passengers departing from port terminals free of charge adequate accommodation on board or ashore, and transport to and from the port terminal and place of accommodation in addition to the snacks, meals and refreshments previously referred to. The maximum amount that the company will pay for accommodation ashore and transport to and from the port terminal shall be equivalent to 80 Euros per person per night for a maximum of three nights. The company will not have an obligation to provide such accommodation ashore where the delay is caused by weather conditions endangering the safe operation of the ship.

14. BROCHURE VALIDITY
